# BIM User Guide

## Grohe BIM components

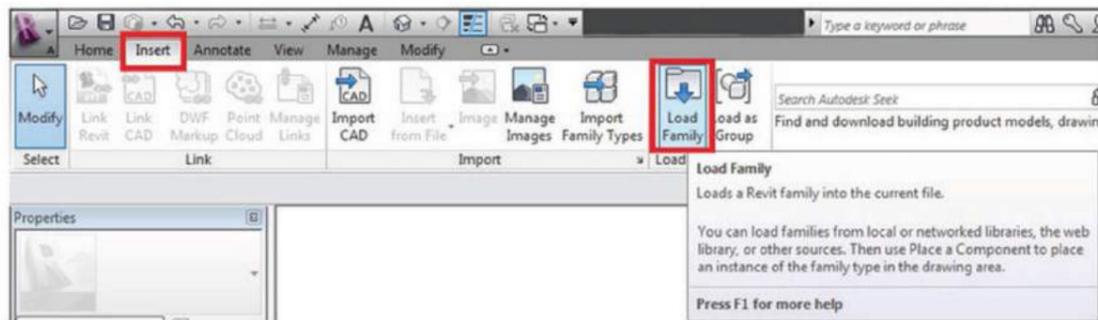

Thank you for downloading this Grohe component. This user guide has been included to provide guidance on how to correctly use and make the most of the content. This document covers all of the types that are available from Grohe.

## Loading the Grohe components into your project

You can load the chosen component into your project using the following method.

1. Open the Revit file containing your 'project' and navigate to an appropriate view.
2. Go to the insert tab on the Revit ribbon and select 'Load Family'

3. Navigate to the location of the saved component that you have downloaded, select the component and click 'Load'.
4. The component is now embedded into your project and ready to be placed.

## Manufacturer Specific Data

The Grohe components contain a number of technical and manufacturer specific data to assist the user when creating their project and/or when scheduling the components. To access the data embedded into the components, simply select the component and click the 'Edit Type' button at the head of the 'Properties' tab. All of the information can be scheduled including URL links direct to the manufacturer's website and to the documentation links of the particular component.

## Manufacturer Specific Data Continued...

All of the content from Grohe comes with COBie data included and the content is inline with the **bimstore** bible version 15, meaning it complies with all government requirements for BIM content.

Parameter	Value
Accessibility/Performance	n/a
AssetType	Foed
ClassificationName	Uniclass2015
ClassificationValue	Pc_40_20_53_54
Code/Performance	n/a
Color	White
Constituents	n/a
CreatedBy	info-uk@grohe.com
CreatedOn	2017-07-01T09:00:00
Documentation/Certificate	n/a
Documentation/InstallationGuide	n/a
Documentation/Literature	n/a
Documentation/Maintenance	n/a
Documentation/Technical	n/a
Duration/Unit	Years
ExpectedLife	0
Features	vitreous China wash down, rimless, horizontal outlet, flush volume 6/3 l, including fixation set.
Finish	Ceramic
Grade	n/a
ManufacturerName	Grohe Limited
Material	Ceramic
ModelNumber	30350000
ModelReference	Bau Ceramic Floor Standing WC
ProductionYear	2017
ReferenceStandard	n/a
ReplacementCost	n/a
Shape	n/a
Size	n/a
TypeName	Bau Ceramic Floor Standing WC
Warranty/Description	n/a
Warranty/Duration/Labor	n/a
Warranty/Duration/Parts	n/a
Warranty/Duration/Unit	Years
Warranty/Guarantor/Labor	info-uk@grohe.com
Warranty/Guarantor/Parts	info-uk@grohe.com

## Additional features

All the Grohe components have been created as face based families this allows the user to simply attach the component to any surface. Ensure that you have the desired family selected and simply hover over the surface for the fixture to appear. Once positioned, with the fixture selected the connection points will appear to allow the user to connect the fixture to a MEP system.

The components also include render quality materials to allow the user to produce high quality images as illustrated.

## Notes:

You can add the Grohe components to your company template file, this will mean they are available without loading when starting a new project.
