Shower Toilet Flush system

STATEMENT BY KIWA

With this product certificate, issued in accordance with the Kiwa Regulations for Certification, Kiwa declares that legitimate confidence exists that the products supplied by

Grohe AG

as specified in this product certificate and marked with the Kiwa®-mark in the manner as indicated in this product certificate may, on delivery, be relied upon to comply with Kiwa evaluation guideline

BRL-K14011 “Technical water supply protection for appliances with a contamination risk”, dated 26-06-2019

wherein the requirements of

EN 1717: 2000 “Protection against pollution of potable water in water installations and general requirements of devices to prevent pollution by backflow”.

are applied for analyzing the risk of contamination by backflow and for selecting the appropriate backflow prevention unit(s).

Backflow prevention unit

Is incorporated with a built in safety device by means of backflow type AB and at connection point a check valve code EB.

APPLICATION AND USE

This certificate applies to quantity-produced “appliances with a contamination risk” intended for connection to drinking water installations. These appliances must be equipped with a backflow prevention unit at the feed in conformance with NEN 1006 that is appropriate for covering the risk of backflow of contaminating substances. The backflow prevention unit shall prevent that water upstream from the protection point will be contamination as a result of backflow from the appliances with a contamination risk and/or downstream connected applications or installation.

MARKING

The products shall be marked with the sticker

or

Location of the mark:

on the outside near the water inlet connection point.

Further compulsory specifications:

- suppliers mark or logo;
- type nomination.

Method of marking:

- indelible;
- visible after mounting.

Shower Toilet Flush system

RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Grohe AG
- and, if necessary,
- Kiwa Nederland B.V.

Consult the supplier's processing guidelines for the proper storage and transport methods.
