PERFECT MATCH 86
Add up how much time you spend at your kitchen sink. Filling pots, preparing veg, washing up after a big meal. It’s a place you will stop at countless times each day, so why not choose a sink that exceeds your needs in terms of quality, design and features?

GROHE sinks have been designed to fit every type of kitchen scheme, with a range of innovative, modern designs perfect for your space. You will find compact models with integrated drainers, large double sinks for when you need to spread out, and chic built-in sinks that fit flush to your worktop. With features like the GROHE QuickFix system and reversible designs as standard, you can have your new GROHE sink installed in minutes with no fuss or hassle.

We are also confident that you will love the special features on offer, from the noise-reducing GROHE Whisper insulation to the automatic waste that means never plunging your hand into dirty water again. With a sink from GROHE you’ll notice the difference, making every time you use your sink less of a chore.
GROHE StarLight
All GROHE sinks use stainless steel graded above the industry average, so you can be confident of their quality and durability. Our innovative brushing technique means that the sparkling steel surface is ultra smooth for easier cleaning.

GROHE Whisper
Shh! A special insulation on the underside of the sink means that noise from running water and handling pots and pans is reduced to a minimum.

GROHE QuickFix
Install your sink swiftly and easily thanks to the GROHE QuickFix system (kit supplied). With two pre-punched faucet holes most of our sinks are easily reversible, giving you the flexibility you need for any design scheme.
Whatever the design of your kitchen you will find a GROHE sink that complements it beautifully. The range includes standard built-in models, flush-mounted, under-mounted and flat-edge models, with eight different designs, from timeless to crisply minimal.

You can choose from two different stainless steel grades – AISI 304 and AISI 316 – according to your specifications too, so whether you are kitting out a compact kitchen or looking for a centrepiece sink for your island unit GROHE has a model that is just right, and at a price point that suits.

**AISI 304**
On every sink model GROHE uses AISI 304 stainless steel, exceeding the quality standard of the industry. Thanks to the high percentages of chrome and nickel it contains, AISI 304 steel gives a particularly bright finish and makes the products durable against rust and corrosion.

**AISI 316 (MARINE STEEL)**
With AISI 316 available on the K400+ series, GROHE offers a durable solution even for regions with a salty, rust-causing climate. Also known as the “marine steel”, AISI 316 is mainly used in the shipbuilding or chemical industries. Famous for its high percentages of chrome, nickel and molybdenum, the steel is extremely resistant to rust and corrosion and even acids or chlorine.

**PATENTED BRUSHING TECHNIQUE (GROHE SATIN FINISH)**
The K300 – K1000 series are treated with special vegetable fibres (Tampico) that give the sinks their characteristic extra-fine satin finish that is highly elegant and functional. GROHE’s patented brushing technique creates a stainless steel surface that is smoother and less porous than many other brands, making cleaning your sink easier and significantly enhancing its durability.

**SPACIOUS BOWLS**
Thanks to our innovative manufacturing techniques, all GROHE sinks feature bowls with a generous depth of 16cm, maximizing space for washing large pots with ease.

**WASTE FITTING WITH REMOTE CONTROL**
Supplied with each model, the remote control fitting allows you to empty the sink without reaching into the dirty water – clean and convenient.

You can choose from two different stainless steel grades – AISI 304 and AISI 316 – according to your specifications too, so whether you are kitting out a compact kitchen or looking for a centrepiece sink for your island unit GROHE has a model that is just right, and at a price point that suits.

FEEL THE BENEFITS
INNOVATIVE FEATURES AND FUNCTIONS

We can’t claim to make washing up a joy, but thanks to the smart, useful features of every GROHE sink, we certainly believe that we can make your sink somewhere you are happy to spend some time. With a GROHE sink, cleaning is easier, draining the bowl can be done remotely, and even the sound of the water running is minimized. Just select your ideal size and style – installation is effortless and the benefits speak for themselves.

Water drainage
Drainage from the bowl’s base and drainers is an important feature, always well cared for on GROHE sinks. In the squared-out, flat-bottomed sinks, good drainage is ensured by the elegant diamond-shaped creases that make the water flow away more easily.

Spacious bowls
Thanks to our innovative manufacturing techniques, all GROHE sinks feature bowls with a generous depth of min. 16cm, maximizing space for washing large pots with ease.

Overflow
The overflow, available on all GROHE sinks, avoids any spillage of water in case the faucets are inadvertently left open. The perimetric solution available on some models improves the look, thanks to its squared-out and essential shape.

Pre-punched faucet holes
Each GROHE sink comes with two pre-punched faucet holes, meaning no additional tools are required and some sinks are reversible and can be installed as either left- or right-handed option.

Waste fitting with remote control
GROHE sinks are equipped with a 3.5” waste fitting and practical strainer plug that prevents solids and leftovers from flowing away with the waste water. The steel cap available on some models adds elegance to the bowl and hides any residue collected in the underlying basket.

Siphon included
For a quick and hassle-free installation each sink comes with an under-sink siphon complementing the scope of delivery and guaranteeing an ALL IN ONE solution.
GROHE’s reputation for quality of course extends to every sink in our range. With steel thicknesses ranging from 0.6 mm on the entry price segment to 1 mm on the premium ranges, each model uses steel graded above industry standards, and our patented brushing process creates a super-smooth surface that is easy to clean. For additional reassurance, each GROHE sink comes with a five year warranty, just like our faucets.
GROHE’s collection of sinks covers every base, from entry-level models to sophisticated, minimalist designs. The way your sink is made will affect how durable, spacious and sleek it looks. Here are the three manufacturing types we use:

MOULDED SINKS
Each sink is moulded from a single sheet of high-quality stainless steel, using a press mould. Faucet and waste holes are punched afterwards. This method creates sturdy sinks in even complex shapes, meaning a sink that is both durable and affordable.

MOULDED-WELDED SINKS
The sink’s frame and bowl are press moulded in high-quality stainless steel before being welded together. This process allows for deeper bowls, more vertical walls inside and a slimmer radius between bowl and frame, for a sleek, modern look.

BENDED-WELDED SINKS
High-quality steel is laser cut to measure before being bent into the bowl shape. This bowl is then welded to the sink’s frame. This method allows for crisper internal angles in the bowl with a very narrow radius – ideal for minimal sink designs. As there is no mould, the steel stays smoother and retains its original thickness, even at the bottom of the bowl.
PRODUCT LINES

Customize your kitchen space by choosing the perfect GROHE sink for you. Within our K-series, we offer you eight beautifully designed and durable sinks including 1, 1.5 or 2 bowl options. Various mounting types from built-in to undermount are available for your individual taste. Make it your very own central kitchen hub with our accessories – perfectly matching our sinks for your ultimate comfort.

ACCESSORIES
A superior sink designed for the demands of contemporary kitchens, the K1000 features a welded design with a diamond-shaped bottom, as well as a generous draining area. Its architectural style is matched by useful features like an included siphon and automatic waste fitting. It can be flush-mounted or built-in.
Maximize the functionality of the K1000 sink with a complementary wooden, plastic or glass chopping board. This generous bowl also perfectly fits a grating kit with built-in grater and a perforated stainless steel colander to make your food preparation as easy as can be.

31 582 SD0
K1000 Kitchen Sink
Stainless steel kitchen sink
with 1 bowl
Select a premium sink for your kitchen, in terms of both design and durability, with the K800. With crisp, contemporary lines and a diamond-shaped bottom, the sink is compatible with numerous innovative accessories to make it the hub of your kitchen. Select from 1 or 2 bowls, flush-mounted or built-in, and enjoy the added benefits of its space-saving siphon and automatic waste fitting with stylish waste basket cover.
Transform this spacious bowl into a complete functional working area with matching accessories for the K800 sink. The black multifunctional grid with edge or bottom positioning not only creates additional workspace but comes in handy as bowl protection. The practical glass or plastic chopping board can be accommodated easily across the steps of the edge.
GROHE K700 UNDERMOUNT SERIES

Get the uncluttered, architectural look with the K700 undermounted sink. With a deeper bowl and soft edges, it is designed to fit under your counter for a seamless, modern finish. Available in 1 or 1.5 bowl versions with bigger bowl on the left or right side.

40 942 000
Plastic Twin Chopping Board
Our K700 kitchen sink offers a wide variety of matching accessories, catering for your individual needs in the cooking process. Combine this sink with a glass, plastic or a wooden chopping board for an increased work space. The practical grating kit with built-in grater or the perforated stainless steel colander will make food prep simple and easy to clean up afterwards.
Waste Set with pop-up and overflow

For even more comfort you can also incorporate the waste set with pop-up and overflow.

Fits to kitchen sinks series: K700 and K700 Undermount.
In tough stainless steel, with welded finish for added durability, the K500 sink offers contemporary design chic with practical features. Choose a 1 or 1.5 bowl (reversible) model with drainer and automatic waste fitting.
Make the most of your 1, 1.5 or 2 bowl K500 sink by adding practical accessories that will enhance your efficiency in the kitchen. Why not add our sliding wooden or glass chopping board to maximize the work space for your comfort during cooking? Or use the white colander as a perfect helper for food prep? The stainless steel dish holder delivers an easy solution for the aftermath of your cooking adventures!

MATCHING ACCESSORIES
Minta Sink Bundle
Kitchen Faucet and Sink Bundle consisting of:

Stainless steel kitchen sink with 2 bowls and reversible drainer

K500 Kitchen Sink
Stainless steel kitchen sink with 1 bowl and reversible drainer
GROHE K400+ SERIES

With the K400+ sink that uses AISI 316 grade stainless steel, GROHE offers an additional solution even for regions with a salty, rust-causing climate. The K400+ series comes with 1 or 1.5 bowl options. Both models are reversible and offer a 4 mm flat edge detail for a sleeker finish.
AISI 316
With AISI 316 available on the K400+ series, GROHE offers a durable solution even for regions with salty, rust-causing climates. Also known as the “marine steel”, AISI 316 is mainly used in the shipbuilding or chemical industries as it is famous for its high percentages of chrome, nickel and molybdenum which make the steel extremely resistant to rust and corrosion and even acids or chlorine.

The large variety of accessories for the K400+ leave none of your kitchen wishes unanswered. Grate, chop, wash and prep your favourite foods with our range of chopping boards and colanders. The stainless steel dish holder perfectly fits the sink and makes the washing up less of a chore.

FIND THE PERFECT MATCH SINK AND FAUCET IN PERFECT HARMONY

Everything about the GROHE range of sinks has been designed for a perfect fit – with your faucet, with your kitchen, with your lifestyle. All of the sinks have been designed to be paired effortlessly with our kitchen faucets and watersystems, both in terms of design and practicality, with comfortable proportions and no splashing.

To make it even easier to pick the right sink and faucet for you, we’ve also created four pre-packed sink and faucet bundles, so you can buy your ideal sink and faucet together, hassle-free. Encompassing our most popular lines, you can select a Bau, Eurosmart, Concetto or Minta sink bundle, making design, purchase and installation an even smoother, swifter process.

These are our design recommendations for YOUR PERFECT MATCH. Of course any other GROHE kitchen faucet can be combined with our kitchen sinks.
Discover the new dream for your kitchen and combine our kitchen sinks with GROHE Red and GROHE Blue Home watersystems to have the perfect kitchen system. Where our GROHE sink offers you the perfect preparation zone, GROHE Red and GROHE Blue Home Mono offer you the ultimate convenience of boiling hot water on faucet and a source of delicious, chilled, filtered drinking water. That’s what we call water enjoyment.

GROHE’s kitchen sinks fit into standard cabinets and can be combined with the GROHE Blue Home cooler and the GROHE Red L-size boiler in a standard 60 cm cabinet and still leave enough space to store cleaning supplies.
Discover the many beautiful and functional faucets in our wide selection. They range from sleek, minimalistic forms that are timeless in their appeal, to striking styles that make a bold design statement. And they come with many ingenious features and functions for ease and pleasure of use. For example with pull-out mousseurs and sprays which are both convenient and timesaving. Or easy-touch faucets that can be operated with just a fingertip. Whatever your needs, GROHE offers you all the choice, comfort and flexibility that you could wish for.
