PART OF LIXIL

GROHE LINEARE

The cosmopolitan aesthetic of Lineare is minimal yet highly inviting. In keeping with the concept of minimalism, Lineare has been reduced to only the necessary elements to achieve the thinnest possible appearance. The line is based on a composition of two simple geometric structures - cylindrical bodies and thin rectangular forms of the handle and spout create beautiful harmonious compositions.

The thin rectangular geometries of the spout and lever extend parallel from the pure cylindrical body. The spout has been moved up to achieve an elegant and lightweight appearance to create a product that perfectly fits in the modern architectural context. With thin proportions and pure composition of both round and square forms, Lineare offers ultimate flexibility when it comes to bathroom design choices.

SUPER LOOKS – SUPER RESISTANCE.
GROHE's SuperSteel surface more than fits this bill. In fact, the innovative PVD coating is ten times more scratch-resistant than chrome. The silk-matt stainless steel surface not only looks unbelievably good, but also demonstrates its resistance in daily use.

GROHE PVD

UNRIVALED HARD AND SCRATCH RESISTANT

MADE-TO-LAST SURFACES RANGING FROM PRECIOUS MATT TO SHINY LIKE A DIAMOND.

GROHE faucets are made to look as beautiful decades on as they did the day you first fell in love with them. The special recipe to success lies in our long-lasting surface quality. GROHE uses state-of-the-art technology to deliver exceptional quality finishes. The physical vapour deposition (PVD) process ensures that the surface composition is three-times harder, delivering glistening gold or sophisticated stainless-steel finishes. As well as being harder, the surface is also ten times more scratch resistant, so it can be cherished for a lifetime.
