GROHE international project organisation can tailor make your specification in accordance to local green building certifications:

The GROHE Corporate Center and the GROHE Design Studio are situated in the heart of Düsseldorf, the state capital of North Rhine-Westphalia and one of Germany's centres of the fashion and design sectors. Being active in over 130 countries, the company benefits from good access to an international infrastructure at its new location. GROHE believes in the principle of short lines of

communication externally as well as internally. The transparency and openness of the new Corporate Center, which was designed by Richard Meier, encourages interaction between employees and communication with market partners. This is also reflected in the new GROHE Store, a cutting-edge showroom and dedicated communication centre.

"We focus on quality, and design emotional value between people and space"

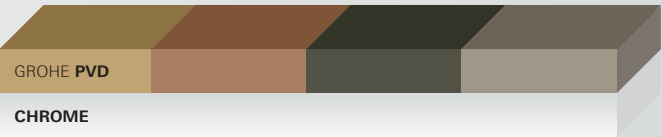

GROHE IN COLORS

Made-to-last surfaces ranging from precious matt to shiny like a diamond. GROHE taps are made to look as beautiful decades on as they did on the day you first fell in love with them.

Our special recipe for success lies in our long-lasting surface quality. GROHE uses state-of-the-art technology to deliver exceptional quality finishes. The physical vapour deposition (PVD) process ensures that the surface composition is three times harder, delivering a glistening gold or sophisticated stainless steel finish. As well as being harder, the surface is also ten times more scratch resistant, so it can be cherished for a lifetime.

GROHE PVD
10 x more scratch resistant
3 x more surface hardness

Keep an eye out for the round symbols indicating what colors each product is available in.

The second and third to last digit of the product number (e.g. 23 589 001) is replaced with the color code, as seen below (e.g. 23 589 AL1).

533 x 457 mm, 1 bowl.

GROHE no.: 31 654 AP0

610 x 460 mm, 1 bowl.

GROHE no.: 31 655 AP0

GROHE composite sinks offer superlative durability and function. Our composite uses 80% quartz mixed with acrylic resin for a super hardwearing material. Molded using a special computer-controlled casting process, it creates sinks that are extremely resistant to heat, dents, scratches and stains. It also doesn't fade under UV light, meaning it will retain its good looks as well as its premium performance.

We're sure you'll love the velvety smooth pore-free surface that is hygienic and easy to clean.

GROHE **SENSIA ARENA**

WELCOME TO A NEW DIMENSION OF **PERSONAL CARE**

Experience a new standard of ultimate personal hygiene, more comfortable, hygienic and soothing than using paper. What do we mean by ultimate hygiene? That's the clean that comes from advanced AquaCeramic technology, germ-resistant HyperClean coating and self-cleaning spray arms. So that your GROHE Sensia Arena is always bright and clean.

A gentle and kind way to cleanse and care for your skin: that's the promise of the GROHE Sensia Arena. Unlimited warm water and adjustable sprays leave you with a special feeling of comfort and wellbeing.

It's all at your fingertips: three ways to conduct your cleansing routine. Choose the personalised smartphone app, the intuitive remote or the simple control panel. And enjoy the special features like automatic seat open and close, the night light or the air dryer to leave you feeling dry and comfortable. All for your comfort.

GROHE SENSE GUARD

FULL SPECTRUM OF **WATER SECURITY FEATURES**

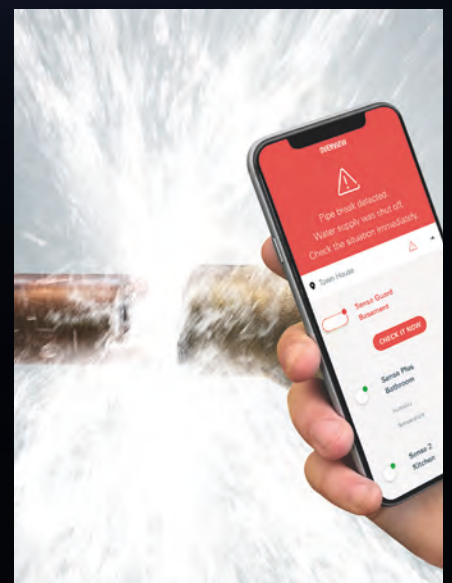

Think of the worst thing that can happen: a pipe bursts, the cellar gets flooded, mould creeps up the walls, the antique furniture is ruined and ... stop right there! With GROHE Sense Guard the moment it detects a pipe break, water supply is automatically shut off. With the GROHE Sense app, one look at your smartphone tells you all you need to know: the water has been stopped and you can relax.
