THE EVOLUTION OF A BESTSELLER

Since GROHE Eurosmart has been launched in 1999, the product line has quickly developed into the undisputed bestseller in the brand’s faucet portfolio – establishing itself as an all-time favorite product choice for professionals. While the main characteristics of the line remain unchanged, GROHE ensures that the Eurosmart portfolio always grows in line with a changing society’s requirements and that it keeps adapting to modern needs.

EUROSMART 2-IN-1 HYBRID

The Eurosmart 2-in-1 hybrid variant offers additional advantages when it comes to user comfort and sustainability. It combines the advantages of a manual and a touchless faucet. Users can decide whether they want to use the manual lever or use touchless technology by activating the water flow via the integrated sensor.

TOUCHLESS **COMFORT** OR ULTIMATE **CONTROL**

TOUCHLESS

The infrared sensor detects the hands automatically and precisely, offering an incredible level of comfort for handwashing.

PRECISE LEVER CONTROL

Smoothest handling for effortless precision and ultimate comfort for a lifetime thanks to GROHE SilkMove.

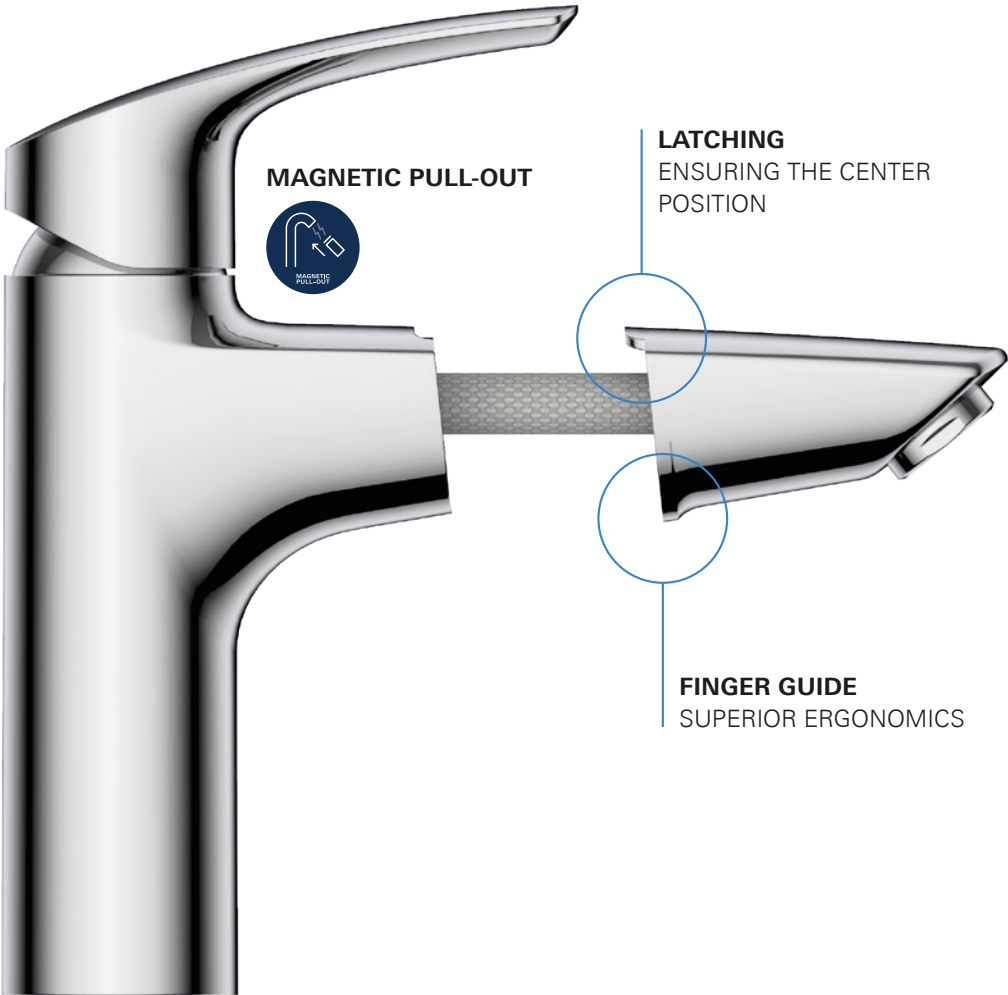

The new Eurosmart 2-in-1 hybrid is battery operated.

EUROSMART PULL-OUT

REACH FURTHER

GROHE Eurosmart redefines the notion of flexibility for a bathroom faucet, thanks to a pull-out spray. Perfect for rinsing the basin, washing your hair and more, this innovative feature means you are no longer tied to the basin, and instead can enjoy more room to manoeuvre. The GROHE Magnetic Docking guarantees easy retraction and smooth docking of the spray head back to the starting position.

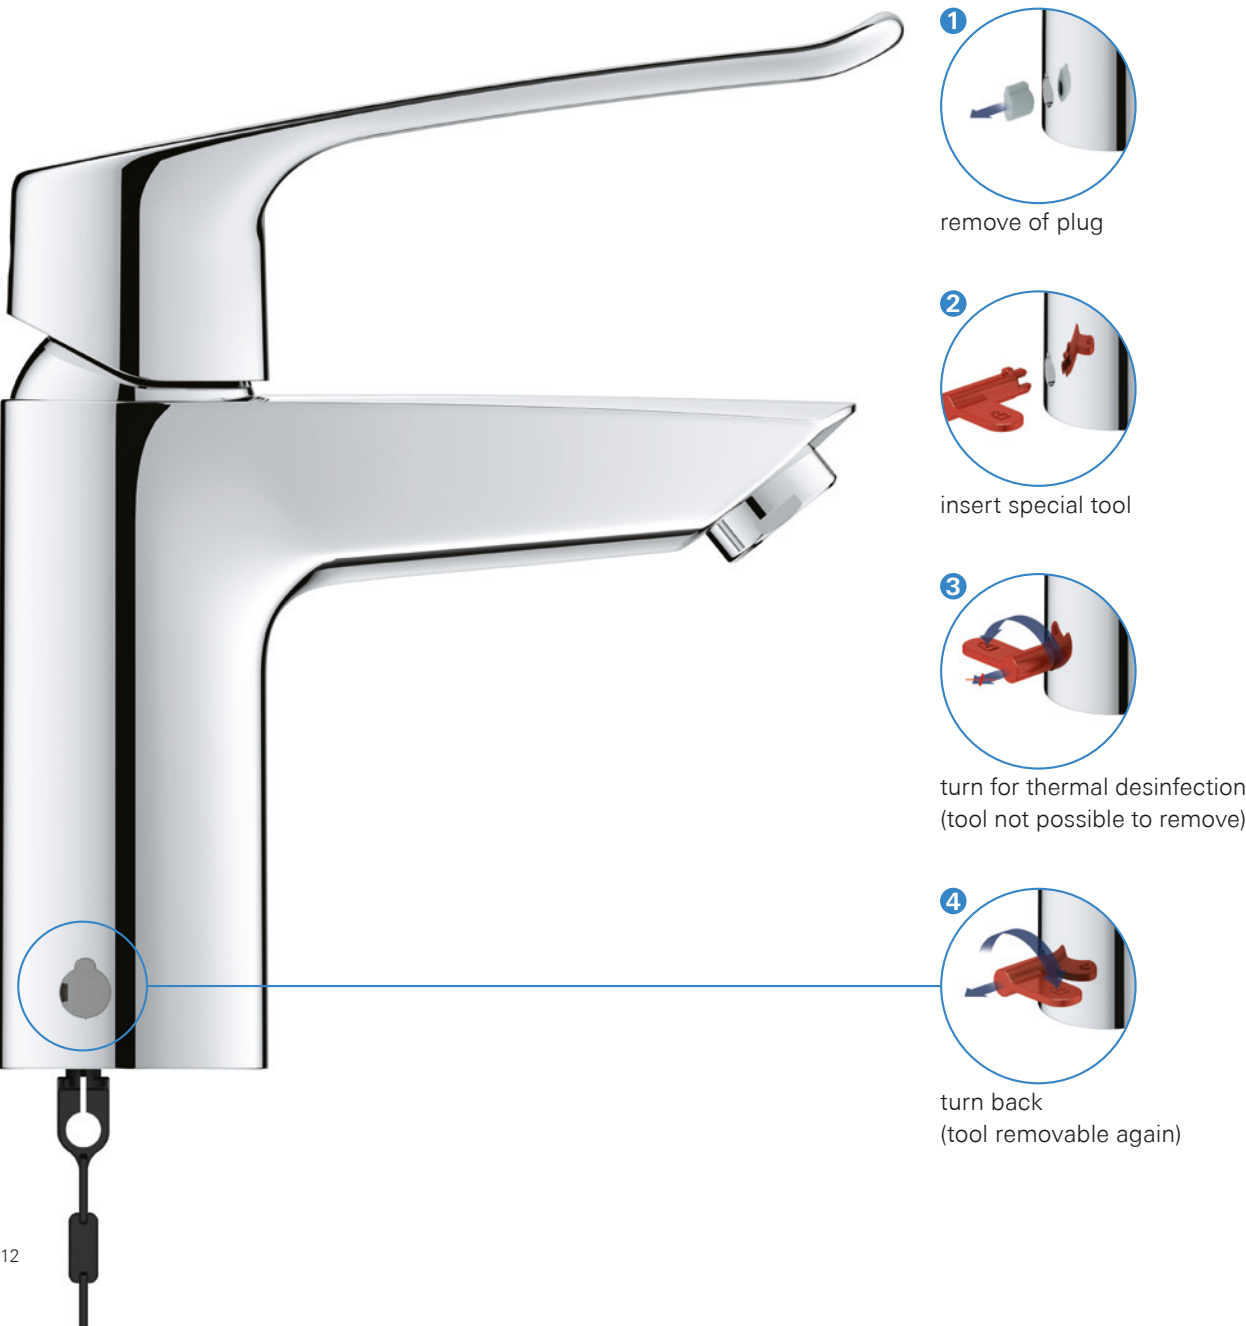

HAIR WASHING & CLEANING

EUROSMART SAFETYSTOP

WHEN SAFETY PLAYS A ROLE

The Eurosmart SafetyStop provides effective thermostatic protection by limiting the maximum hot water temperature to a preadjustable value. It ensures that the desired water temperature remains constant, even in the event of pressure fluctuations. The Eurosmart SafetyStop offers optimum protection, particularly in the case of facilities for children, senior citizens or people with mobility issues.

CHOOSING THE EUROSMART DESIGN MAKES YOUR BATHROOM FUTURE READY

EUROSMART LEVER VARIANTS

The new Eurosmart offers three different handle variants. The ergonomic loop lever is ergonomically designed and offers additional grip. This option is the right choice for elderly or children. The long lever option is designed to enable elbow operation for doctors.
