# **VERSATILITY** FOR A MODERN LIFE

GROHE BAULINES

## THE FORMULA OF GROHE BAULINES

We wanted to create a product line that gives you everything you need for your projects. First of all we looked for inspiration. And we found it in the renowned Bauhaus movement. It became the origin of our GROHE Baulines. Inspired by Bauhaus we created three principles which fit the work of planners and architects.

See for yourself ...

## THE FIRST PRINCIPLE: TO TAKE SIMPLICITY OF DESIGN AND ADD INTUITIVE USE

There's more to GROHE Baulines than you might think. In creating this collection, we completely dispensed with superfluous design elements. Instead we used design as the very foundation of GROHE Baulines, focusing on optimal function and comfort. Every faucet and every basin allows for perfect control of water in addition to looking good.

## THE SECOND PRINCIPLE: TO OFFER GREAT QUALITY AT A GREAT PRICE

GROHE Baulines is our answer to the needs and demands of your every project. To make your choice of fitting the right one, we put our most proven technologies into this collection. All faucets are of durable quality, with a long-lasting surface, and include a water saving system. And yet GROHE Baulines offers this great quality at an affordable price. What more could you want?

### **GROHE StarLight**

Made-to-last surfaces ranging from elegant matt to shiny like a diamond.

### **GROHE LongLife**

Long-life easy operation guaranteed.

### **GROHE EcoJoy**

Save precious resources and enjoy 100% water pleasure.

## THE THIRD PRINCIPLE: TO CREATE HARMONY BETWEEN OBJECTS

With our ceramic line Bau Ceramic there is no need to rely on guesswork. Our dedicated design team looked at each individual product of GROHE Baulines to determine which faucet and basin shapes look best together, guaranteeing you a seamless, complete design aesthetic. In addition, we physically tested our products against three criteria to make sure that every suggested combination offers you a perfect match:

- Easy installation
- No splashing during hand washing
- Plenty of space for optimum comfort

# GROHE BAULINES: THE PERFECT CHOICE FOR ALL YOUR PROJECTS

We know that as architects, planners and homebuilders, you have very specific needs when it comes to your individual projects. So we at GROHE have been listening to you carefully.

We understand the requirements you have in planning the sanitary area and how much they can vary from project to project. Whether for a smaller project with one or two bathrooms or for a large residential building with 100 bathrooms: with our versatile GROHE Baulines collection, we help to make your project a success. GROHE Baulines is a cost effective and yet beautiful collection designed to suit every bathroom project. And not only that – GROHE Baulines offers a range of kitchen sink mixers. We even give you the perfectly matching ceramics for a complete bathroom solution: with GROHE Bau Ceramic.

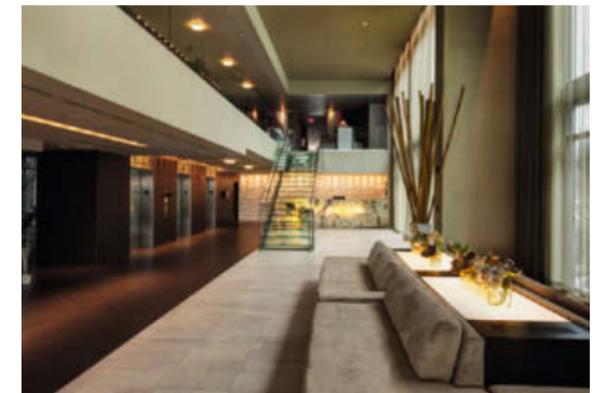

## MAKING FUNCTIONALITY INTO AN ART FORM

GROHE Baulines provides a coordinated range whose design fits harmoniously into every private bathroom interior. With its GROHE StarLight technology, GROHE Baulines faucets are eternally beautiful and easy to clean for effortless use. All basin and bidet mixers have water saving technology, making them exceptionally sustainable in daily use. Because many residential buildings use instant heaters, we made GROHE Baulines to be compatible with these systems. And with the accessories of GROHE Baulines Cosmopolitan it's now simple to create a coordinated look for every bathroom.

## THE PERFECT BLEND OF ARCHITECTURAL FORMS AND MODERN ECONOMICS

Choosing the right sanitary system for your hotel project is a decision to be made with care – especially when you're working with a tight budget. But GROHE Baulines makes your life easy, offering great quality at a great price. Our GROHE LongLife technology ensures that our faucets are extremely long lasting and durable. We have also made sure that cleaning is easy and efficient: with GROHE StarLight technology. Depending on your requirements GROHE Baulines comes in concealed and exposed solutions with a full range of matching accessories.

## MAKING THE BEAUTY OF DESIGN ACCESSIBLE TO ALL

With GROHE Baulines, aesthetic design is now available and affordable for everyone and everywhere – from private to public areas. Every piece of GROHE Baulines is easy and fast to install and just as easy and fast to clean thanks to the clear design and smooth surfaces. GROHE StarLight technology makes the surface of every faucet scratch resistant to external influences and the patented GROHE LongLife Ceramic Cartridge keeps the inside of the faucets in good condition for years and years. Another great feature: all WC's of GROHE Bau Ceramic meet high hygiene standards thanks to GROHE rimless technology.

## GROHE LONGLIFE ENERGY SAVING AND EFFORTLESS WATER CONTROL IN ONE

Only GROHE mixers deliver the unique GROHE LongLife experience. The smooth handling of our single-lever mixers is a perfect example of the quality and superiority of our brand. The GROHE LongLife cartridge delivers precise control of the water flow and temperature.

- The GROHE LongLife cartridges are made from a ceramic alloy that had its origins in space-technology – one gliding over the other with utmost precision. The polished mirror-like surface of the discs is then coated with a special lubricant with Teflon® technology for friction free performance. The lever handle of the mixer is connected to the discs by a solid brass element for maximum strength and durability.
- GROHE is one of the world's leading faucet manufacturers and one of only a few worldwide that manufacture their own advanced cartridges. Our cartridges are designed to withstand constant use – for years and years of maintenance-free operation.

## GROHE ECOJOY SAVE PRECIOUS RESOURCES AND ENJOY 100% WATER COMFORT

All GROHE Baulines faucets use GROHE EcoJoy: a technology that saves water and energy to conserve precious resources. It offers you the perfect water experience without the need to compromise. Reducing water and energy consumption goes hand in hand with convenience and attractive design. Less water. Perfect flow.

- GROHE EcoJoy faucets use a flow-limiting mousseur to reduce water consumption from ten litres per minute to just over five litres.
- An aerator provides the same voluminous experience as that offered by a regular faucet.

## GROHE STARLIGHT MADE-TO-LAST SURFACES SHINY LIKE A DIAMOND

GROHE faucets are guaranteed to look as beautiful decades on, as they did the day you first used them. The special key to success lies in our long-lasting surface quality: GROHE StarLight technology.

- Continuous improvement over the last 75 years has seen our unique plating process refined to produce a robust and immaculate surface that is recognised as one of the best finishes in the world. This is thanks to rigorous quality controls and on-going investment, offering a lifetime of enjoyment.
- The flawless, long-lasting surface is designed to be extremely resistant to dirt and scratches, making maintenance effortless and ensuring good-as-new looks for many years.

## GROHE RIMLESS LEAVES BACTERIA NOWHERE TO HIDE

With GROHE rimless technology, every surface of the toilet is easy to reach and effortless to keep clean, even in places you can't see. It makes bacteria hiding in corners and crevices under the rim a thing of the past. GROHE rimless technology leaves bacteria nowhere to hide.

## SOFT CLOSE SEAT GENTLE AND QUIET

Both seat and lid optionally have a gentle and quiet soft-closing mechanism to add a little more comfort and convenience to the time in the bathroom. This user-friendly mechanism is durable and reliable making this WC an excellent choice for your project.

## QUICK RELEASE SEAT EASY REMOVAL FOR EASY CLEANING

GROHE quick release seats come equipped with a special hinge that allows for easy removal of the toilet seat. It makes hidden spaces easily accessible for cleaning to keep the WC a hygienic and germ-free place.

## WITH OUR PERFECT MATCHES YOU CAN BE SURE **THAT EVERYTHING FITS**

A consistent design language and ergonomic use are essential parameters in the choice of faucets and basins for your projects.

To spare you the hassle of choosing, we recommend you our perfect matches. We made sure every faucet finds its counterpart with a basin. This makes all faucets of GROHE Baulines together with GROHE Bau Ceramic collection for a complete bathroom solution.

Each of our matches for GROHE Baulines was tested to be "perfect" in design and function. Choose for yourself the combination that most perfectly complements your project.

## ONE SOLUTION IN SIX PARTS

Every project is different and so is every bathroom and kitchen design. GROHE Baulines comes in four unique forms, each with its own distinctive design features – giving you a versatile range to choose from. Together with Bau Ceramic and the accessories of Bau Cosmopolitan you can equip an entire bathroom using only one coordinated design. And to complete the design of your entire home, you can even choose an equivalent Bau faucet and sink for your kitchen.

## 01 BAUFLOW

# THE WIDE OPERATING ANGLE: FOR OPTIMAL USER COMFORT

The flowing transition from spout to body to lever brings movement and vitality to BauFlow. Unfaltering in its execution, this transition unites these three components in a refreshing way. As with all GROHE single-lever mixers, the wide operating angle of the lever handle is perfectly engineered for optimal user comfort across the collection of basin, bath and bidet faucets and shower mixers.

## 02 BAUEDGE

# THE SEVEN DEGREES ANGLE: FOR GREATER COMFORT

Consistent use of lozenge shapes lends an air of balance and harmony to BauEdge. The modern silhouette of the lever handle is pitched at an angle of seven degrees for comfortable use without compromising the clarity of its form, while a comprehensive range of faucets and showers ensures this sophisticated design meets your design requirements.

### 03 BAULOOP

## THE CHARACTERISTIC LOOP: FOR EASE OF USE

Designed to enhance the purity of modern architecture, BauLoop brings lightness to its surroundings through its striking loop-shaped lever handle and cylindrical body. Featuring the signature GROHE design elements, the collection carries its minimalist design ethos over a number of draw-off points and includes a faucet for vessel basins.

## 04 BAU CERAMIC

## THE PERFECT MATCH: FOR COMPLEMENTING GROHE BAULINES FAUCETS

With its soft and round forms, Bau Ceramic is the perfect match for all GROHE Baulines faucets. Amongst these combinations you will find the best choice for the bathroom interiors of your projects. Bau Ceramic has a contemporary style, comprising a wide range of basins of different sizes and mounting options.

This versatile range uses state-of-the-art technology. Not only are all toilets from this range effortless to clean, thanks to GROHE rimless technology, but every Bau Ceramic toilet also comes equipped with a quick-release seat for more efficient cleaning and an optional soft-close lid and cover.

## BAULINES KITCHEN COLLECTION

Stunning simplicity defines the GROHE Bau. The cylindrical spout creates a lightness of design ideal for architectural schemes without compromising performance. The comfortable height and smooth turn mechanism ensures vital flexibility. The range variety offers a well-suited faucet for your classical, contemporary or cosmopolitan kitchen. The K200 sink is the perfect complement. With a single bowl and drainer, this model is fully reversible and comes with an automatic waste fitting for added comfort and convenience.

# KITCHEN FAUCETS

The range of contemporary and cosmopolitan Baulines kitchen faucets guarantees a perfect fit to the modern kitchen.

## QUALITY

From the first design sketch to the final product to after-sales services: Our customers can rely on our Made in Germany sense of perfectionism.

*"No.1 most trusted brand in the sanitary industry" –  
Wirtschaftswoche, 2017*

## TECHNOLOGY

We constantly drive innovation to enrich your everyday water experience, delivering smart solutions on the path of the digitization of water.

*"Top 50 companies to change the world" –  
Fortune Magazine, 2017*

## DESIGN

Our highly awarded design DNA's recipe for success is simple: Merging the contemporary and the timeless into products that feel like they were designed just for you.

*Over 350 design awards won since 2003*

## SUSTAINABILITY

Water is our passion. We care about every drop and our CSR commitment goes even beyond one element alone: We strive to protect all of our planet's resources for future generations.

*CSR Award winner of the German Government, 2017*

## A GLOBALLY CONNECTED COMPANY

### GROHE IS PART OF LIXIL – A GLOBAL LEADER IN THE HOUSING AND BUILDING INDUSTRY.

Beginning back in early 20th century Japan, LIXIL is today the most comprehensive company in our industry, with a unique portfolio spanning everything from technologies that revolutionize how we interact with water, to a full lineup of interior and exterior materials and products for houses and major architectural projects. Operating in 150 countries, LIXIL companies design and manufacture products that are used by more than a billion people around the world every day.

The world is changing rapidly, and LIXIL companies are helping to shape it. Across our brands and technologies, we design and manufacture tomorrow's living solutions, today. From developing smart innovations in people's homes and offices, to redefining the world's most famous city skylines, LIXIL products are transforming the spaces in which we all work, learn, travel, relax, and live.

Alongside GROHE in LIXIL's family of world-class brands are American Standard, INAX, DXV by American Standard and Permasteelisa. Combined, our brands make us number one in faucets and plumbing-related products worldwide and Japan's premier provider of housing products. We're leading the way in many other areas around the world, thanks to our shared focus on creating innovations that genuinely improve people's lives.

Together we're stronger. Combining our GROHE expertise as a world leader in sanitary fittings with the unique technology and insights from LIXIL's other Water Technology brands, GROHE now offers complete bathroom solutions, featuring innovative products like shower toilets and SmartControl showers, alongside revolutionary technologies such as AquaCeramic sanitaryware that stays clean for 100 years. Beautiful, functional and reliable, LIXIL's products and solutions are changing the way people live, all over the world.

Together, we share a powerful vision of a better tomorrow, for our customers and for the world. As a truly global manufacturing company, we know that we have an important part to play in securing the future of our planet. We're leading the way in areas such as energy efficiency and water saving technology and aim to achieve a net zero environmental footprint by 2030. We believe everyone should have access to clean and safe sanitation, and are committed to using our expertise to help make this possible.

Together we're creating the future of good living for everyone, everywhere.
