Welcome to the smartest product portfolio in the industry, where kitchen faucets, water systems, sinks, accessories and consumer-oriented features combine with outstanding design.

Enjoy the ultimate GROHE kitchen experience.

COMFORTHEIGHT
Height of the spout allows easy filling of large pots.

EASYTOUCH
Just touch the faucet at any point with your wrist, elbow or just your fingertip to turn the faucet ON and OFF.

SPEEDCLEAN
Remove limescale with a single wipe.

ENHANCED WATER
Superior-quality water directly from the kitchen faucet – saving time, money and the environment.

FOOTCONTROL
Just touch the bottom side of the cabinet with a gentle tap of your foot to turn the faucet ON and OFF.

FORWARD ROTATING LEVER
Forward rotating lever prevents the lever hitting the backsplash.

PULL-OUT MOUSSEUR SPRAY
Increases operating radius of the faucet and offers different sprays.

PULL-OUT MOUSSEUR
Increases the operating radius of your faucet.

ZERO (Lead+Nickel FREE)
No contact of water with lead and nickel due to isolated inner water ways.

CHILDLCK
Integrated safety mechanism prevents unintentional opening by young children.

PROFESSIONAL-SPRAY
Features a 360° spring arm and easy switching between the spray and mousseur.

GROHFLEXX
With flexible, hygienic GrohFlexx kitchen santoprene hose.

TITANIUM INSIDE
All boilers in our GROHE Red collection are made from titanium.

PULL-OUT DUAL SPRAY
Increases operating radius of the faucet and offers easy switching between mousseur and the spray.

EASYDOCK M
Integrated magnet for seamless docking of the spray head.

EASYEXCHANGE
The aerator is easy to install and de-install using just a coin.

SWIVELSTOP
Limited turn angle prevents flooding.

AQUAGUIDE
Variable spout end for adjustment of water flow.

REALSTEEL
Made of solid stainless steel, a robust material with anti-bacterial properties.

EASYDOCK
Guaranteed easy retraction and smooth docking for your pull-out spray head, every time.

GROHE SILKMOVE
Smoothest handling for effortless precision and ultimate comfort for a lifetime.

GROHE COOLTOUCH
No scalding on hot surfaces thanks to 100 % GROHE CoolTouch.

GROHE ECOJOY
Save precious resources and enjoy 100 % water comfort.

GROHE SILKMOVE ES
The intelligent combination of energy saving and effortless water control.

GROHE STARLIGHT
Made-to-last surfaces ranging from precious matt to shiny like a diamond.

GROHE WHISPER
Innovative water technology delivering whisper-quiet acoustics.

GROHE QUICKFIX
Faster, easier and hassle-free, GROHE QuickFix cuts installation time by up to 40 %.

HANDS ON FEATURES

Accommodating your every wish and desire, GROHE water systems and kitchen faucets include user-centric features and ingenious details that make all the difference. More choice, more comfort and more flexibility; which is why our products are such a pleasure to use.

Dear customers,

The kitchen is the heart of the home. It's where the family gathers, friends connect and experiences are shared. At GROHE we use our unique craftsmanship to create smart technology to effortlessly deliver water to your kitchen to cook, clean, drink and enjoy. We are dedicated to creating elegant and intelligent products that combine design, quality, technology and sustainability. With our most complete kitchen portfolio ever, we are driven by our goal to be at the heart of your home.

A perfect example of our ethos is our GROHE watersystems. Our award-winning design reflects our heritage as skilled and innovative craftsmen. At the slightest touch of a button or gentle twist of the tap, GROHE Red and Blue systems provide you with the purest filtered water, either hot or cold. Delivering fresh water into your glass or cup eliminates the need for bottled water or kettles, creating a more sustainable way to enjoy water in your life.

We know that creating fantastic food requires technology which is reliable and functional: technology with unique features and intelligent design reflecting your personal taste. This understanding has allowed us to develop GROHE's market-leading Premium Lifestyle Collections,

with clever and beautiful features like our GROHE EasyTouch or GROHE FootControl products, helping to liberate your hands in the kitchen. Or our distinctive Essence Professional Color designs, all created to encourage your culinary creativity, another addition to our comprehensive kitchen portfolio.

A passion for taste is central to what you create in the kitchen, at GROHE we aim to complement this with our passion for delivering the very best craftsmanship and engineering expertise in every one of our products. We credit this approach for the success of our Performance Lines, which deliver multiple design combinations, versatile height and installation options to allow you to create kitchens that are safer, easier and more enjoyable to use.

This unique combination of expert craftsmanship and forward-thinking innovation means we can deliver the products you need to build kitchens that are practical, reliable and beautiful: the hallmark of GROHE.

Yours, Michael Rauterkus
Chief Executive Officer
Grohe AG

QUALITY

From the first design sketch to the final product to after-sales services: Our customers can rely on our Made in Germany sense of perfectionism.

*"No.1 most trusted brand in the sanitary industry" –
Wirtschaftswoche, 2017*

TECHNOLOGY

We constantly drive innovation to enrich your everyday water experience, delivering smart solutions on the path of the digitization of water.

*"Top 50 companies to change the world" –
Fortune Magazine, 2017*

DESIGN

Our highly awarded design DNA's recipe for success is simple: Merging the contemporary and the timeless into products that feel like they were designed just for you.

Over 350 design awards won since 2003

SUSTAINABILITY

Water is our passion. We care about every drop and our CSR commitment goes even beyond one element alone: We strive to protect all of our planet's resources for future generations.

CSR Award winner of the German Government, 2017

Accommodating your every wish and desire, GROHE watersystems and kitchen faucets include user-centric features and ingenious details that make all the difference. More choice, more comfort and more flexibility: which is why our products are such a pleasure to use.

new

GROHE SMARTCONTROL

SmartControl Kitchen puts precise control at your fingertips. Instead of a lever you start and stop the water flow by pushing the button on the spray – great for those moments when you have your hands full as it can be operated just by your wrist or elbow. To control the flow just turn the valve, changing smoothly from an eco-flow to a powerful jet.

To adjust the water temperature, turn the valve at the body gently to the left or right. The pull-out spray head design gives you great flexibility, and with this feature available in three designs and 11 attractive finishes, the perfect model for your kitchen scheme is at your fingertips, too.

MAGNETIC DOCKING

Thanks to powerful integrated magnets the pull-out spray head retracts easily and smoothly to the perfect position every time after use.

with pull-out dual spray

FOOTCONTROL

Just touch the bottom side of the cabinet with a gentle tap of your foot to turn the faucet ON and OFF.

GROHE FOOTCONTROL

For kitchens where time is of the essence and convenience is a must, why not go hands-free? GROHE's new FootControl faucets can be turned On and Off with a gentle tap of your foot on the base unit, leaving your hands free and your faucet spotless at all times. Three of our most popular faucets come with this innovative FootControl technology, or you can retro-fit the feature to any GROHE pull-out kitchen faucet. To say goodbye to germs, mess and hassle, simply tap your feet!

30 309 000

Eurodisc, Concetto, Eurostyle Cosmopolitan,
Eurosmart Cosmopolitan, Eurosmart

Except for GROHE EasyTouch faucets.

GROHE EASYTOUCH

Kitchens are hands-on places, where multi-tasking is a must. Why not make life easier for yourself with a GROHE touch-activated faucet? We've developed a choice of two innovative solutions that let you control the flow of water without using your hands, making your kitchen more hygienic, convenient and instinctive to use. GROHE faucets can be activated with a simple touch of the wrist or elbow. Leave your hands free and keep your faucet sparkling clean. Change the way you control your kitchen with just a single touch.

The kitchen is the heart of your life at home – and let's face it, sometimes life gets messy. With GROHE's innovative EasyTouch faucets sticky fingers won't slow you down and cross-contamination is a thing of the past. Hidden GROHE technology lets you start and stop the flow of water with a single tap of your arm, wrist or the back of your hand, anywhere on the spout. No more greasy fingerprints or struggling to turn a lever with your elbow.

EASYTOUCH

Just touch the faucet at any point with your wrist, elbow or just your fingertip to turn the faucet ON and OFF.

TYPES OF **SPOUTS**

Our range of spout options let you combine comfort and convenience with great design flexibility. Our spouts come in a variety of heights, from a compact low spout for small spaces to a high spout perfect for filling pots, as well as in a choice of U, C or L-shape to perfectly suit your style. Need even more flexibility? Our spouts that swivel or feature pull-down spray heads offer extra reach, power and performance for busy kitchens.

POWERFUL SPRAY FUNCTIONS

Get some power behind your daily tasks with GROHE's range of professional and pull-out sprays. Enjoy an increased operating radius for maximum convenience, and on many models you can also switch between two spray functions for even greater flexibility. The GROHE EasyDock function with glideflex hose ensures the spray docks smoothly back into position, and on some professional spray models GROHE EasyDock M uses a magnet to guide the spray head back into place effortlessly, every time. When your work is done enjoy the easy-clean advantage of GROHE's SpeedClean feature – available on all pull-out sprays with two spray functions – that lets you clean limescale from the head with a simple sweep of your finger.

new

GROHE COMPOSITE

Durable and resilient, GROHE composite sinks use quartz, the hardest part of granite, to create a seamless sink that is resistant to scratches, dents, heat and stains, for a beautiful kitchen centerpiece tough enough for any job.

GROHE STAINLESS STEEL

Put sleek, strong, stainless steel at the heart of your kitchen with a GROHE kitchen sink. Our above-standard grade stainless steel offers great performance, crisp angles and generous capacity in a timeless, hardwearing material.

GROHE PVD

Made-to-last surfaces ranging from precious matt to shiny like a diamond. The special recipe to success lies in our long-lasting surface quality. GROHE uses state-of-the-art technology to deliver exceptional quality finishes. The physical vapour deposition (PVD) process ensures that the surface composition is three-times harder, delivering glistening gold or sophisticated stainless-steel finishes. As well as being harder, the surface is also ten times more scratch resistant, so it can be cherished for a lifetime.

GROHE PVD

UNRIVALLED, HARD AND SCRATCH RESISTANT

OUR HIGH-END PVD TECHNOLOGY BRINGS OUR NEW COLORS TO LIFE

When it comes to a good design strategy, the choice of colors plays a vital part. But not only the color, the quality of the finish is equally important. Especially in the world of bathroom and kitchen solutions and where surfaces ought to last for a long time, excellent, highly resistant finishes distinguish good products from great ones. GROHE's aspiration to always produce only the best drove us to choose a special technology that assures, not simply the best, most brilliant colors, but a durable coating of the highest quality. Our aim: to offer our consumers long-lasting water enjoyment. Next to the resistance of the material, it was also about the look of the color itself: we wanted to make Brushed Hard Graphite as dark grey as possible and give our golden finishes the brilliance they deserve. That was the task for our technology team. In close collaboration with the GROHE design team, they achieved exceptional results working with a great new technology: PVD.

GROHE PVD
 10x more scratch resistance
 3x more surface hardness

GROHE BLUE HOME

YOUR PRIVATE WATER SOURCE

CHILLED AND SPARKLING

Do you like your chilled drinking water still or sparkling? Somewhere in between? With GROHE Blue the choice is all yours. First the water is filtered to remove impurities. Then it is chilled to create that mountain-fresh taste. And when you turn on the faucet a simple twist of the handle lets you choose whether still, medium sparkling or sparkling water flows into your glass.

Fresh water tailored to your exact taste, flowing straight from the faucet – it's as easy as 1, 2, 3. While the right-hand lever on a GROHE Blue faucet mixes hot and cold water as normal, a handle on the left serves the chilled and filtered water and controls how sparkling your drinking water is, from perfectly still to bursting with bubbles.

An LED indicator in the push button changes color to let you see your chosen carbonation level at a glance – still, medium sparkling or sparkling – as well as telling you when the filter capacity has fallen below 10 % and will soon need to be changed. The water temperature can also be set to your personal taste, individually regulated to between 6 °C and 10 °C.

FIND OUT THE WAYS IN WHICH GROHE BLUE BRINGS BENEFITS TO YOUR HOME:

Imagine drinking water fresh from a mountain spring – life-affirming, thirst-quenching, and absolutely pure. Now imagine the same health-giving, untainted water flowing directly from your own kitchen faucet. The GROHE Blue water system makes this a reality in your own home. It transforms ordinary tap water and filters it, leaving a taste as fresh and pure as nature intended.

Whatever your idea of perfect water refreshment – filtered, chilled, sparkling or all three – GROHE Blue brings it to you straight from the faucet.

Separated inner water ways for unfiltered faucet and filtered drinking water.

Spout, turnable by 150°

Hygienic mousseur with two outlets and optional pull-out

Forward rotating lever with knurled structure for better grip

Cartridge with GROHE SilkMove technology for normal tap water

TASTE

GROHE's filters remove impurities to give water a pure, fresh taste that even beats bottled water

HEALTH & WELLNESS

removing even small particles but leaving behind precious minerals, GROHE Blue makes it easy to embrace the health-giving properties of water

CONVENIENCE

no more carrying heavy bottled water home

SUSTAINABILITY

kinder to the environment, with less waste on packaging and processing compared to bottled water

**STILL, MEDIUM OR SPARKLING:
THE CHOICE IS ALL YOURS**

How sparkling do you like your water? It's all a matter of taste. GROHE Blue Home has a simple and intuitive mechanism that lets you carbonate your drinking water at the touch of a button. Deliciously cool filtered water, just the way that you – and all your family – like it.

Still waters run deep. If you prefer your water cool and still, nothing could be simpler: just push the top button. The LED lights up blue and your glass fills with pure refreshment.

Sparkling – but not too much? More of a medium sparkling? Coming right up. Press both buttons in sequence – the LED lights up turquoise – to produce a finely pearled stream of water.

Sparkling water, alive with bubbles. If that's your idea of thirst-quenching heaven, just press the lower button – the LED lights up green – for your perfect glass of water.

HEALTHIER LIVING FROM THE SOURCE

Water is the most precious and fascinating element on earth, the source of life itself, with proven benefits for our health, wellbeing and even appearance. The "Deutsche Gesellschaft für Ernährung" (German Nutrition Society) recommends that we drink at least two litres of water each day.

Many of us opt to buy bottled water, either because it tastes better than tap or because we believe it is healthier than tap water. However scientific analysis has proved that, due to strict regulations and controls on our drinking water supplies, tap water is at least as good as bottled.

Another reason people spend a small fortune on bottled water is the preference for sparkling water. Now GROHE Blue delivers all the benefits of bottled water, straight from the faucet. It provides a great taste, plus the option of sparkling water too. This makes GROHE Blue the ultimate solution, not just for good health but for great taste as well.

CONVENIENCE ON TAP

Think for a moment about the energy and hassle it takes to keep a supply of bottled water on hand at home. You have to buy it from the supermarket, then lug it from the car to your house. Once there you have to find space to store it out of sight. And when you've finished it you have to return or recycle the plastic bottles, before starting the whole process again.

By installing a GROHE Blue system in your kitchen you can say goodbye to the hassle and inconvenience of bottled water with no compromises on taste or health. Just turn the faucet and enjoy an unrivalled refreshment experience. What could be easier than that?

WATER NEEDN'T COST THE EARTH

It takes an astonishing 7 litres of water to produce a single litre of bottled mineral water. Not to mention the energy used, CO₂ emissions created and the 1.5 million tons of plastic packaging used by the industry each year.

At GROHE we are always working to secure the future of water, our most precious natural resource. This is the driving force behind the development of such products as GROHE Blue, which help people manage their water and energy consumption with ease.

GROHE BLUE PROFESSIONAL

BENEFITS AT A GLANCE

With the GROHE Blue water system your company can enjoy the benefits of filtered, chilled and sparkling water on tap. The GROHE Blue water system transforms ordinary tap water into filtered, fresh, perfect tasting drinking water, whenever you want it – 24 hours a day, 7 days a week.

TASTE & HYDRATION

GROHE's filters remove impurities to give water a pure, fresh taste that even beats bottled water.

COST & SPACE SAVING

GROHE Blue eliminates the cost and hassle of buying, transporting and storing bottled water. These savings will keep adding up, year after year.

COMFORT

Free and unlimited access to fresh and sparkling water will be valued by employees and increases motivation and productivity.

Fast and easy preparation of cold- and hot drinks provides more time for the essentials.

SUSTAINABILITY

GROHE Blue reduces the carbon footprint – no more use of plastic bottles, less waste in production and lower CO₂ emissions than for bottled drinking water.

Separated inner water ways for unfiltered tap- and filtered drinking water.

Spout, turnable by 150°

GROHE ONDUS APP

The GROHE Ondus app allows you to integrate the GROHE Blue professional into your WLAN and thereby activate further advantages of the system. The app offers monitor functions for the remaining filters or CO₂ capacity. Also the software setting of the cooler can be easily made or adjusted via the app. In case of malfunctions, you will also be informed directly by push messages and will receive instructions for troubleshooting.

- integration of the cooler to the local WLAN
- Set-up of software parameters
- Alerts when capacities are low

System requirements
iPhone with iOS 9.0 or higher / smart phone with Android 4.3 or higher / WPA2 encrypted and password protected network, MAC address filters are not supported

GROHE BLUE PURE FILTER FAUCETS

PURE TASTE, PURE ENJOYMENT

Add great taste to your kitchen, effortlessly, with a GROHE Pure Blue Filter faucet. GROHE Blue Filter faucet technology turns tap water into great-tasting filtered drinking water, removing chlorine and other impurities that can impair taste. Separate internal waterways keep filtered and unfiltered water separate at all times. The GROHE filter fits easily under your sink, and the faucet still offers all the usual functionality of a standard kitchen faucet. Put pure, refreshing, filtered water at the heart of your kitchen with a GROHE Blue Pure faucet.

TECHNOLOGY YOU CAN TRUST

Designed down to the last detail with a view to convenience, sustainability and safety, GROHE Red presents a range of intelligent and indispensable features.

SAFETY FIRST

Our first commitment is to your safety. That's why GROHE Red comes with a unique, failsafe child lock

NO MORE WAITING

Kettle-hot water is always available at the push of a button, so waiting for the kettle or pot to boil is a thing of the past

LESS WASTE

You only take the exact amount of hot water you need, so you save on water and energy consumption

CLEAN, FRESH TASTE

Filtered water heated to 100 °C for an exceptional taste experience

CLEAN YOUR WORKTOP

Filtered water heated to 100 °C no need for the clutter of a kettle. GROHE Red fulfills all your water needs from a single tap

Spout, turnable by 150°

Separated inner water ways for normal tap and boiling water

Forward rotating lever with knurled structure for better grip

Touch buttons with ChildLock safety for boiling water

Cartridge with GROHE SilkMove technology for normal tap water

A SINGLE SIMPLE SOLUTION

TASTE THE DIFFERENCE

Use GROHE Red in combination with a GROHE Blue filter and get fresh just-filtered water served kettle-hot. Enjoy your tea and coffee with a great clean taste. The boiler where the water is heated is made of titanium, which does not impart any metallic taste to the water. It is also highly resistant to corrosion and limescale build-up, meaning a consistently great taste over the lifetime of the faucet.

DECLUTTER YOUR KITCHEN

What busy kitchen doesn't need more worktop space? With GROHE Red you can clear the clutter of your kettle from the worktop and get both hot and cold mixed water plus kettle-hot water, all from the same faucet. The system's compact boiler is designed to fit discreetly below the sink, leaving you more counter space and a cleaner, clearer-looking kitchen.

SAVE PRECIOUS TIME

Never wait for a pot of boiling water or a much-needed cup of tea again. We all lead busy lives, and time spent waiting for water to boil all adds to the time spent on chores rather than relaxing. Whether it's cooking pasta, blanching vegetables or preparing a baby's bottle, GROHE Red cuts out the waiting time with kettle-hot water ready for you, the instant that you want it.

SAVE WATER, SAVE ENERGY

Think for a moment about how often you boil and reboil the kettle. How often do you actually use all the water? With GROHE Red you only take the hot water you need, saving precious water and time. In combination with the large GROHE Red boiler, which can replace a warm water outlet in the kitchen, the system saves even more water. The large GROHE Red boiler delivers the heated water for both kettle-hot water and also warm water for the sink mixer, instantly. No more wasted water while you wait for it to reach optimum temperature.

KETTLE-HOT WATER ON TAP

How many times a day do you fill and boil the kettle? From the first cup of tea in the morning to a late night pasta dinner, we boil up water countless times, often heating far more than we need. With GROHE Red you have water heated to 100 °C ready when you want it. It's convenient and saves water and time.

TECHNOLOGY THAT PUTS SAFETY FIRST

If there are children in your family, there can be few better reasons for banning the electric kettle for good. Unfortunately kettles continue to be the cause of many accidents in the kitchen. Tragically, the victims of these accidents are most often small children below the age of 5. It happens time and again: a child grabs a trailing flex or pulls a kettle of boiling water over themselves. It just doesn't bear thinking about. In the UK, over 360 young children suffer severe scalding every year. That's one child every day – and every child is one too many.

When you choose GROHE Red you can be sure of choosing safety first. GROHE Red has passed the German TÜV test, the independent body that confirms that the applicable safety requirements and quality standards have been met.

CHILDLOCK

Safety is paramount in a family kitchen. That's why GROHE Red faucets are designed with a child lock that makes scalding practically impossible: for the boiling water to flow, you must first unlock with the upper push button before the lower push button can be used.

GROHE RED TITANIUM BOILER

All boilers in our GROHE Red collection are made from titanium. Unlike stainless steel and copper, two metals traditionally used for boilers, titanium is highly resistant to corrosion and limescale build-up – ensuring perfect performance over a lifetime. It also guarantees that your water is free of any metallic taste.

GROHE RED

GROHE Red boilers* are cost and energy efficient – their improved design and insulation mean they achieve an A rating for their efficiency.

L-Size boiler for 5.5 l of boiling water at once

M-Size boiler for 3 l of boiling water at once

Going on holiday? Then simply switch the boiler to holiday mode, making sure any water is only heated to 60 °C for further energy savings.

What is more, the titanium used to make the water tank means an incredibly durable boiler that won't corrode.

* GROHE Red Boiler M-Size:
Energy efficiency class A, heat losses max. 14 Wh
GROHE Red Boiler L size:
Energy efficiency class A, heat losses max. 15,9 Wh

GROHE RED ACCESSORIES

Once you discover the superior taste that comes with GROHE Red, you won't want to do without it. And you don't have to: our stylish and practical GROHE Red Thermo bottles don't just travel well, they keep your hot drinks hot for up to 8 hours. They also come equipped with a useful tea strainer that, like the bottle itself, is made from chic, hygienic stainless steel. Or enjoy a cup at home with a set of elegant GROHE Red tea glasses, made from heat-proof, dishwasher-safe glass. And our high-performance GROHE Red filters purify tap water through a five-stage process. The filtration removes even the smallest substances that might impair the taste of the water, while essential minerals are retained.

S-, M- & L-SIZE FILTER

The S-, M- & L-Size filters use a 5-step filtration process to remove even the slightest trace of impurities from the water – while retaining all the important minerals that benefit your health. The filter also fulfills another essential function: By filtering out limescale it ensures that the boiler can perform perfectly over its long lifetime.

DESIGN YOUR KITCHEN WITH **COLOR AT ITS HEART**

Bring your kitchen to life with the new GROHE Colors. Inspired by world-wide color trends, GROHE now offers ten color finishes on a selection of kitchen faucets and sinks, helping you design a space that is tailored to your individual tastes and needs. From warmer, organic shades like Warm Sunset to more urban, architectural finishes like Brushed Graphite, GROHE has the finish that is right for your scheme. Choose a color with total confidence that your faucet and sink will work together harmoniously in a Perfect Match. With GROHE Colors you have the freedom of choice to create a kitchen that has as much color as the rest of your life.

GROHE SMARTCONTROL

Juggling kitchen tasks? Feel like you never have enough hands? The new SmartControl feature is here to make life easier. Instead of grappling with a lever it lets you switch the water flow on and off with just the touch of a button – meaning you even use your elbow or wrist. Turn the button to control volume with ease, from an eco-flow to a powerful jet. To adjust the water temperature, turn the valve at the body gently to the left or right. The pull-out mousseur head gives you great flexibility for rinsing the sink or prepping veg. Available on three tap designs and in 11 desirable finishes, this innovation creates a sleek and streamlined silhouette and puts precise control at your fingertips.

GROHE ZEDRA

The reinvention of a legend brings design flair and innovative operation to your kitchen – the new GROHE Zedra. With an elegantly fluted zinc body the Zedra offers intuitive, tactile operation and great features such as lead and nickle free water flow. The pull-out spray is ideal for rinsing veg or the sink itself – you can select from three spray types according to the job in hand – while water consumption is reduced by up to 75 % without compromising performance. When finished it retracts easily into place thanks to the Magnetic Docking system. The range has a model to suit every need, from a SmartControl version to a pillar faucet with filter. Available in two finishes, this sleek, sophisticated faucet puts you in control.

GROHE EUROSMART

Create a kitchen that the whole family can take pleasure in with the new GROHE Eurosmart. Effortless control, unrivalled performance and temperature-safe operation combine in a sleek contemporary design. The solid cylindrical body, the elegant curve of the spout – the new Eurosmart range looks great while offering huge versatility. In a variety of two heights, with a useful swivel spout and the option of our water-saving GROHE EcoJoy feature or the energy-saving cold-start cartridge GROHE SilkMove ES, Eurosmart is bound to fit in with your busy family kitchen.

Take your kitchen to the next level with the new Eurosmart pull-out kitchen faucet. Equipped with the basic features of Eurosmart and adding a functional pull-out dual spray, Eurosmart pull-out will help you do your daily kitchen tasks with just tip of your finger. The pull-out dual spray gives you a greater operating radius of the faucet while offering easy switching between two sprays. The EasyDock mechanism guarantees easy retraction and smooth docking for your spray head, every time. Eurosmart pull-out comes with a shiny chrome surface or a matt SuperSteel finish to fit your kitchen perfectly.

GROHE KITCHEN SINKS

Add up how much time you spend at your kitchen sink. Filling pots, preparing veg, washing up after a big meal. It's a place you will stop at countless times each day, so why not choose a sink that exceeds your needs in terms of quality, design and features?

GROHE sinks have been designed to fit every type of kitchen scheme, with a range of innovative, modern designs perfect for your space. You can choose between a sleek, hardwearing stainless steel model or a super-durable composite available in two contemporary colors. You will find compact models with integrated drainers, large double sinks for when you need to spread out, and chic built-in sinks that fit flush to your worktop.

With features like the GROHE QuickFix system and reversible designs as standard, you can have your new GROHE sink installed in minutes with no fuss or hassle. We are also confident that you will love the special features on offer, like the automatic waste that means never plunging your hand into dirty water again. Thanks to GROHE Whisper technology you can even be sure that this will be your quietest sink ever – for composite sinks the material itself reduces the noise from water flow and for GROHE stainless steel sinks special integrated insulation achieves the same effect. With a sink from GROHE you'll notice the difference, making every time you use your sink less of a chore.

SINK AND FAUCET IN PERFECT HARMONY

Everything about the GROHE range of sinks has been designed for a perfect fit – with your faucet, with your kitchen, with your lifestyle. All of the sinks have been designed to be paired effortlessly with our kitchen taps and watersystems, both in terms of design and practicality, with comfortable proportions and no splashing.

Whatever the design of your kitchen you will find a GROHE sink that complements it beautifully. You can choose between a sleek, hardwearing stainless steel model or a super-durable composite available in two contemporary colors, both perfectly matched to new GROHE color options. The range includes topmount models, flush-mounted, under-mounted and flat-edge models, with numerous different designs, from timeless to crisply minimal. Whether you are kitting out a compact kitchen or looking for a centrepiece sink for your island unit, GROHE has a model that is just right, and at a price point that suits.

To make it even easier to pick the right sink and tap for you, we've also created four pre-packed sink and tap bundles, so you can buy your ideal sink and tap together, hassle-free. Encompassing our most popular lines, you can select a Bau, Eurosmart, Concetto or Minta sink bundle, making design, purchase and installation an even smoother, swifter process.

QUALITY THAT LASTS A LIFETIME

GROHE's reputation for quality of course extends to every sink in our range. With steel thicknesses ranging from 0.6 mm on the entry price segment to 1 mm on the premium ranges, each stainless steel sink uses steel above industry standards, and our patented brushing process creates a super-smooth surface that is easy to clean. Our composite sinks produced in a special computercontrolled casting process use 80 % quartz mixed with acrylic resin for a super hardwearing material offering superlative durability and function, with smooth pore-free surface that is resistant to heat, dents scratches and stains, hygienic and easy to clean. For additional reassurance, each GROHE sink comes with a five year warranty, just like our faucets.

FEEL THE BENEFITS INNOVATIVE FEATURES, FINISHES AND FUNCTIONS

We can't claim to make washing up a joy, but thanks to the smart, useful features of every GROHE sink, we certainly believe that we can make your sink somewhere you are happy to spend some time. With a GROHE sink, cleaning is easier, draining the bowl can be done remotely, and even the sound of the water running is minimised. Just select your ideal size and style – installation is effortless and the benefits speak for themselves.

Spacious bowls

All GROHE kitchen sinks feature spacious bowls meaning you have lots of room to maneuver and enough space for washing large pots with ease. Thanks to our innovative manufacturing technique, all of our stainless steel sinks offer a generous depth of min. 16 cm while the innovative computerized casting technique allows our composite sinks a generous depth of even at least 20 cm.

Pre-punched faucet holes

Many models come with pre-punched faucet holes, meaning no additional tools are required and some sinks are reversible and can be installed as either left- or right-handed option.

Overflow

The overflow, available on all GROHE sinks, avoids any spillage of water in case the faucets are inadvertently left open. The perimetric solution available on some models improves the look, thanks to its squared-out and essential shape.

Waste fitting with remote control

GROHE sinks are equipped with a 3.5" waste fitting and practical strainer plug that prevents solids and leftovers from flowing away with the waste water. The steel cap available on some models adds elegance to the bowl and hides any residue collected in the underlying basket.

Siphon included

For a quick and hassle-free installation each sink comes with an under-sink siphon complementing the scope of delivery and guaranteeing an ALL IN ONE solution.

Water drainage

Drainage from the bowl's base and drainers is an important feature, always well cared for on GROHE sinks. In the squared-out, flat-bottomed sinks, good drainage is ensured by the elegant diamond-shaped creases that make the water flow away more easily.

GROHE STAINLESS STEEL SINKS

INNOVATIVE FEATURES, FINISHES AND MOUNTING TYPES

Customize your kitchen space by choosing the perfect GROHE sink for you. Our K-series range of stainless steel sinks covers every size, configuration and price point, so you're sure to find your perfect fit. The range includes 1, 1.5 or 2 bowl options. Various mounting types from built-in to undermount are available for your individual taste. Make it your very own central kitchen hub with our accessories – perfectly matching our sinks for your ultimate comfort.

We are also confident that you will love the special features on offer, from the noise-reducing GROHE Whisper insulation to the automatic waste that means never plunging your hand into dirty water again. With a sink from GROHE you'll notice the difference, making every time you use your sink less of a chore.

FINISHES

AISI 304

On every sink model GROHE uses the AISI 304 stainless steel, exceeding the quality standard of the industry. Thanks to its high percentages of chrome and nickel it contains, AISI 304 steel gives a particularly bright finish and makes the products enduring against rust and corrosion.

AISI 316 (marine steel)

With AISI 316 available on the K400+ series, GROHE offers a durable solution even for regions with salty, rust-causing climate. Also known as the "marine steel", AISI 316 is mainly used in the shipbuilding or chemical industries. Famous for its high percentages of chrome, nickel and molybdenum, the steel is extremely resistant to rust and corrosion and even acids or chlorine.

Patented brushing technique (GROHE satin finish)

The K300 – K1000 series are treated with special vegetable fibres (Tampico) that give the sinks the characteristic extrafine satin finish that is highly elegant and functional. GROHE's patented brushing technique creates a stainless steel surface that is smoother and less porous than many other brands, making cleaning your sinks easier and significantly enhancing its durability.

INNOVATIVE FEATURES

GROHE StarLight

All GROHE sinks use stainless steel graded above the industry average, so you can be confident of their quality and durability. Our innovative brushing technique means that the sparkling steel surface is ultra smooth for easier cleaning.

GROHE QuickFix

Install your sink swiftly and easily thanks to the GROHE QuickFix system (kit supplied). With two pre-punched faucet holes most of our sinks are easily reversible, giving you the flexibility you need for any design scheme.

GROHE Whisper

Shhh! A special insulation on the underside of the sink means that noise from running water and handling pots and pans is reduced to a minimum.

MOUNTING TYPES

Topmount

Traditional built-in with a vertical 8 mm edge.

Flat-edge

An original edge with an inclined 3 mm high profile, matching an extreme elegance with the ease of installation.

Undermount

Sleek and contemporary, ideal for installation under the worktop.

Flush-mount

The product is sunk 1,5 mm deep recess making it perfectly flush with the worktop. Alternatively, it can be installed on the worktop.

GROHE K1000 SERIES

A superior sink designed for the demands of contemporary kitchens, the K1000 features a welded design with a diamond-shaped bottom, as well as a generous draining area. Its architectural style is matched by useful features like an included siphon and automatic waste fitting. It can be flush-mounted or built-in.

GROHE COMPOSITE SINKS

INNOVATIVE FEATURES, FINISHES AND MOUNTING TYPES

Customize your kitchen space by choosing the ideal GROHE sink for you. Our K-series range of composite sinks covers every size, configuration and price point, so you're sure to find your perfect fit. The range includes round and square models in two different colors – Granite Black and Granite Grey. Select from 1, 1.5 or 2 bowl models, with or without and integrated drainer, with dimensions suited to kitchens from the spacious to the compact. Plus choose between a neat top-mounted model or a sleek, minimalist under-mounted version which sits under the worktop.

FINISHES

AT0 | Granite Grey

AP0 | Granite Black

QUARTZ COMPOSITE

Your sink can cope with the daily demands of even the busiest kitchen thanks to our innovative composite material. Using 80 % quartz – the hardest part of granite – mixed with acrylic resin, GROHE composite sinks are the toughest around. This hardened composite material is resistant to scratches, dents, stains, cracks and heat up to 280 °C. The smooth surface is easy to clean and 100 % food safe for total peace of mind.

Each GROHE composite sink is produced using a computerized polymerization casting process which guarantees a seamless finish and total uniformity of color throughout. What's more, the composite won't fade in UV light, meaning its certain to stay looking as good as the day you bought it.

Non fading in UV-light

Let the sunshine in! Our composite material won't fade in UV light, keeping your sink looking pristine and the color-true.

Easy to clean

Your composite sinks is easy to keep clean so you will be able to enjoy its flawless finish for years to come.

Spacious bowls

All GROHE composite sinks feature seamless bowls with a generous depth of at least 20 cm maximizing space for washing large pots and filling vases with ease.

INNOVATIVE FEATURES

GROHE QuickFix

Install your sink swiftly and easily thanks to the GROHE QuickFix system (kit supplied). With pre-punched faucet holes most of our sinks are easily reversible, giving you the flexibility you need for any design scheme.

GROHE Whisper

Shhhh! GROHE sinks reduce noise from running water and handling pots to a minimum, thanks to the dense mix of quartz and acrylic in our composite sinks.

Scratch-proof

Putting practicality first – made only from solid composite, these sinks are scratch-proof for a longer life.

Heat resistant up to 280 °C

Never hesitate to put down a hot pot again – GROHE composite sinks are heat resistant up to 280 °C for great durability.

Stain resistant

Because your sink has to be practical as well as beautiful, GROHE composite sinks are stain resistant for long-lasting good looks.

100 % food safe

Enjoy total confidence in using your kitchen your way – GROHE composite sinks are 100 % food safe, making prep easy and hygienic.

MOUNTING TYPES

Waste fitting for easy handling

Thanks to the automatic waste your hands will stay clean and dry. For even more convenience, upgrade your sink with the stylish push-excenter (see page 206/207).

Topmount

A traditional built-in look with a vertical 8 mm edge. Installation is with clips (except for models 31653, 31654, 31655 and 31648 – silicone only).

Undermount

Installed under the worktop for a sleek, contemporary look.

new

GROHE COMPOSITE K700 UNDERMOUNT SERIES

Create a sleek, minimalist look for your kitchen with the K700 undermount series. Mounted below the worktop for a clean, seamless look, this style is an ideal fit for modern, architectural kitchens. These single bowl sinks come with clips to make mounting easy and an optional automatic waste-fitting with push-to-open technology. All sinks in the K700 Undermount series can also be installed top-mounted for a more traditional look.

FIND THE **PERFECT MATCH** SINK AND FAUCET IN PERFECT HARMONY

Everything about the GROHE range of sinks has been designed for a perfect fit – with your faucet, with your kitchen, with your lifestyle. All of the sinks have been designed to be paired effortlessly with our kitchen faucets and watersystems, both in terms of design and practicality, with comfortable proportions and no splashing. The sinks are available in two colors, both perfectly matched to new GROHE Color options for brassware, which includes Hard Graphite and Warm Sunset color options.

These are our design recommendations for **YOUR PERFECT MATCH**.
Of course any other GROHE kitchen faucet can be combined with our kitchen sinks.
