# KITCHEN SINKS

Add up how much time you spend at your kitchen sink. Filling pots, preparing veg, washing up after a big meal. It's a place you will stop at countless times each day, so why not choose a sink that exceeds your needs in terms of quality, design and features?

GROHE sinks have been designed to fit every type of kitchen scheme, with a range of innovative, modern designs perfect for your space. You can choose between a sleek, hardwearing stainless steel model or a super-durable composite available in two contemporary colors. You will find compact models with integrated drainers, large double sinks for when you need to spread out, and chic built-in sinks that fit flush to your worktop.

With features like the GROHE FastFixation system and reversible designs as standard, you can have your new GROHE sink installed with no fuss or hassle. We are also confident that you will love the special features on offer, like the automatic waste that means never plunging your hand into dirty water again. Thanks to GROHE Whisper technology you can even be sure that this will be your quietest sink ever – for composite sinks the material itself reduces the noise from water flow and for GROHE stainless steel sinks special integrated insulation achieves the same effect. With a sink from GROHE you'll notice the difference, making every time you use your sink less of a chore.

# GROHE STAINLESS STEEL SINKS

Put sleek, strong, stainless steel at the heart of your kitchen with a GROHE kitchen sink. Our above-standard grade stainless steel offers great performance, crisp angles, and generous capacity in a timeless, hardwearing material.

# GROHE COMPOSITE SINKS

For those who prefer darker tones: our new sinks in contemporary Granite Black and Granite Grey are made from durable composite that is not only scratch-proof but also stain-resistant and easy to clean.

## FEEL THE BENEFITS INNOVATIVE FEATURES, FINISHES AND FUNCTIONS

We can't claim to make washing up a joy, but thanks to the smart, useful features of every GROHE sink, we certainly believe that we can make your sink somewhere you are happy to spend some time. With a GROHE sink, cleaning is easier, draining the bowl can be done remotely, and even the sound of the water running is minimized. Just select your ideal size and style – installation is effortless and the benefits speak for themselves.

### Automatic control

For even more comfort you can upgrade your waste set from manual to automatic control. Fits to all kitchen sinks series.

### Pre-punched faucet holes

Many models come with pre-punched faucet holes, meaning no additional tools are required and some sinks are reversible and can be installed as either left- or right-handed option.

### Overflow

The overflow, available on all GROHE sinks, avoids any spillage of water in case the faucets are inadvertently left open. The perimetric solution available on some models improves the look, thanks to its squared-out and essential shape.

### Water drainage

Drainage from the bowl's base and drainers is an important feature, always well cared for on GROHE sinks. In the squared-out, flat-bottomed sinks, good drainage is ensured by the elegant diamond-shaped creases that make the water flow away more easily.

### Spacious bowls

All GROHE kitchen sinks feature spacious bowls meaning you have lots of room to maneuver and enough space for washing large pots with ease. Thanks to our innovative manufacturing technique, all of our stainless steel sinks offer a generous depth of min. 16 cm while the innovative computerized casting technique allows our composite sinks a generous depth of even at least 20 cm.

### Waste fitting with remote control

GROHE sinks are equipped with a 3.5" waste fitting and practical strainer plug that prevents solids and leftovers from flowing away with the waste water. The steel cap available on some models adds elegance to the bowl and hides any residue collected in the underlying basket.

### Siphon included

For a quick and hassle-free installation each sink comes with an under-sink siphon complementing the scope of delivery and guaranteeing an ALL IN ONE solution.
