**DESIGNED TO
COMPLEMENT
EVERY SHAPE**

NEW GROHE LINEARE
SUITS BOTH **ROUND &
SQUARE** DESIGNS

GROHE LINEARE

Lineare's cosmopolitan aesthetic is minimalist yet highly inviting. In keeping with the concept of minimalism, Lineare has been reduced to only the necessary elements to achieve the thinnest possible appearance. The line is based on the composition of two simple geometric structures: the cylindrical bodies and thin rectangular forms of the handle and spout create beautiful, harmonious compositions.

The thin rectangular geometries of the spout and lever extend in parallel from the pure cylindrical body. The spout has been moved up to achieve an elegant and lightweight appearance to create a product that fits perfectly in the modern architectural context. With the thin proportions and pure composition of its round and square forms, Lineare offers ultimate flexibility when it comes to bathroom design choices.

**SUPER LOOKS – SUPER RESISTANCE**

GROHE's SuperSteel surface more than fits the bill. In fact, the innovative PVD coating is ten times more scratch-resistant than chrome. The silk-matt stainless steel surface not only looks unbelievably good, but also demonstrates its resistance in daily use.

GROHE PVD

UNRIVALLED HARD AND SCRATCH RESISTANT

MADE-TO-LAST SURFACES RANGING FROM PRECIOUS MATT TO SHINY LIKE A DIAMOND

GROHE faucets are made to look as beautiful decades on as they did on the day you first fell in love with them. Our special recipe for success lies in our long-lasting surface quality. GROHE uses state-of-the-art technology to deliver exceptional quality finishes. The physical vapour deposition (PVD) process ensures that the surface composition is three times harder, delivering a glistening gold or sophisticated stainless-steel finish. As well as being harder, the surface is also ten times more scratch resistant, so it can be cherished for a lifetime.
