INTRODUCING **GROHE WATERSYSTEMS**
FOR HOME AND OFFICE

99 °C HOT

100% TASTE STRAIGHT FROM THE TAP

BOTTLE FREE ZONES WITH GROHE BLUE

Enjoy the benefits of fresh filtered water wherever you are. In the comprehensive GROHE Blue range you'll find models designed for every situation – get filtered, still or sparkling water on tap in your own kitchen or select a model ideal for office and professional use.

TASTE

GROHE's filters remove impurities to give water a pure, fresh taste that even beats bottled water

SPACE SAVING

No more storing of water bottles in the fridge

CONVENIENCE

No more carrying heavy bottled water

SUSTAINABILITY

Kinder to the environment, with less waste on packaging and processing compared to bottled water

HEALTH & WELLNESS

Removing even small particles but leaving behind precious minerals, GROHE Blue makes it easy to embrace the health-giving properties of water

KETTLE HOT WATER STRAIGHT FROM THE TAP

Designed down to the last detail with a view to convenience, sustainability and safety, GROHE Red presents a range of intelligent and indispensable features.

SAFETY FIRST

Our first commitment is to your safety. That's why GROHE Red comes with a unique, failsafe child lock

NO MORE WAITING

Kettle hot water is always available at the push of a button, so waiting for the kettle or pot to boil is a thing of the past

LESS WASTE

You only take the exact amount of hot water you need, so you save on water and energy consumption

CLEAN, FRESH TASTE

Filtered water for an exceptional taste experience

CLEAN YOUR WORKTOP

Filtered water heated to 99 °C no need for the clutter of a kettle. GROHE Red fulfills all your water needs from a single tap

GROHE BLUE HOME

THE SUPERIOR SOLUTION FOR YOUR PRIVATE HOME

How sparkling do you like your water? It's all a matter of taste. GROHE Blue Home has a simple and intuitive mechanism that lets you carbonate your drinking water at the touch of a button. Deliciously cool filtered water, just the way that you – and all your family – like it.

Still waters run deep. If you prefer your water cool and still, nothing could be simpler: just push the top button. The LED lights up blue and your glass fills with pure refreshment.

Sparkling water, alive with bubbles. If that's your idea of thirst-quenching heaven, just press the lower button – the LED lights up green – for your perfect glass of water.

Sparkling – but not too much? More of a medium sparkling? Coming right up. Press both buttons in sequence – the LED lights up turquoise – to produce a finely pearled stream of water.

GROHE RED

THE SAFEST WAY FOR KETTLE HOT WATER

A million things to do with it – the more you use it, the more things you think of to do with it: GROHE Red makes life simple like never before. Blanching, boiling, brewing-up, sterilising, cleaning. Tea, coffee, broccoli, spaghetti, eggs. Morning cuppa, baby's bottle, midnight feast. The possibilities are endless. And once you've enjoyed the sheer convenience of using GROHE Red, you'll never want to do without it.

TÜV certified safety – Press the child lock button for 1 second to unlock the kettle hot water.

While unlocking, the LED will flash red, lighting up continuously as soon as the child lock is deactivated.

To start the flow of kettle hot, press and hold the lower activation button. Remove your finger to stop the flow.

GROHE BLUE PROFESSIONAL

The fresh spring for office kitchens. GROHE Blue Professional refreshes with simple push of a button and keeps your workplace free of plastic bottles.

The guarantee for pure taste – For our GROHE Blue system we have worked with BWT, Europe's leading filtered water professionals, to ensure that our system produces an unparalleled, refreshing drinking experience.

Experts recommend that we drink at least 2 litres a day to keep your concentration high. Yet with GROHE Blue it's so easy and pleasurable to fill a glass of refreshing water that many people find themselves returning for more.

It might seem obvious, but in a world that is slowly sinking in a sea of plastic, the issue of the practically indestructible plastic bottles is becoming more urgent than ever – GROHE thinks the best packaging for water is no packaging at all.

GROHE RED

Also at home in office kitchens. Thanks to the capacity of the L-size boiler GROHE Red also fulfills the needs of an office kitchen and keeps the worktop clean and tidy.

If you enjoy tea and coffee, you'll love them even more with GROHE Red. Thanks to the ultimate purity of the filtered water, the aromas can develop to the full.

Why wait? Whenever you need kettle-hot water, we think it should be ready and waiting for you. GROHE Red's innovative technology means never having to wait. And less time spent waiting means less energy spent heating as well. So take time to enjoy, not to boil.

When you choose GROHE Red you can be sure of choosing safety first. GROHE Red has passed the German TÜV test, the independent body that confirms that the applicable safety requirements and quality standards have been met.
