GROHE EXPOSED
SHOWER SYSTEMS
GROHE SHOWER SYSTEMS
POWERED BY GROHE TECHNOLOGY

GROHE shower systems are packed with innovative technologies and features. From SpeedClean to GROHE TurboStat, more relevant technologies ensure greater comfort and enjoyment.

NEW! GROHE’s metal showerheads have been upgraded with new GROHE PureRain spray to deliver larger water droplets, while integrated DropStop function ensures that once the shower is switched off, the showerhead will not drip.

**GROHE CoolTouch**
Eliminates the risk of scalding from a hot chrome surface.*

**GROHE EcoJoy**
Less water and perfect flow.

**GROHE SilkMove**
Smoothest handling for effortless precision and ultimate comfort.

**GROHE StarLight**
A radiant chrome finish that resists smudging and tarnishing for enduring pristine looks.

**GROHE TurboStat**
Always the right temperature. Reacts instantly to changes in water pressure.

**AquaDimmer**
Diverter combined with volume control.

**DropStop**
DropStop function prevents dripping when the valve is closed and the showerhead is horizontal.

**Inner WaterGuide**
Inner water guide for a longer life.

**One-Click Showering**
Direct access to different sprays by pressing the corresponding button.

**GROHE PureRain Spray**
The new and improved Rain spray with larger and softer droplets for a more luxurious showering experience.**

**SafeStop**
Safety lock protects against scalding.

**SmartControl**
Push for ON-OFF and turn for volume adjustment.

**SpeedClean**
Remove lime scale with a single wipe.

**TwistFree**
Prevents the shower hose from twisting.

* Available on all thermostatic Rainshower shower systems
German innovations have always been a driving force behind the success of GROHE showers. GROHE has been producing its innovative showers and shower engines since the late seventies. From injection molding, welding and galvanizing of plastic components to assembly, quality inspection and packing – proven expertise and diligent work at every stage of the process are key to the high quality of GROHE showers.

**GROHE Retro-Fit Diverter Shower Systems**
Switch between showerhead and hand shower with a single lever
See page 28

**GROHE Thermostatic Shower Systems**
For the safest and most comfortable shower experience, powered by GROHE TurboStat
See page 6
A thermostatic shower system is a complete system that has an exposed thermostatic valve built into the system allowing the user to fine tune the temperature and select the shower outlet they want to use.

Shower Outlets
Shower components that water flows from such as showerhead or hand shower

Adjustable Slide Bar
Allows the user to adjust the height of the hand shower to meet their needs

Thermostatic Valve
Controls temperature with one handle and diverts to showerhead or hand shower with the other

Temperature Handle
Controls temperature only

Diverter Handle
Turns water on and off and controls water flow to shower outlets

A diverter shower system can be used to add to an existing valve. It includes a diverter handle that allows the user to select the shower outlet they want to use. All temperature mixing and on/off functionality are operated through a separate valve in the wall.

Shower Outlets
Shower components that water flows from such as showerhead or hand shower

Adjustable Slide Bar
Allows the user to adjust the height of the hand shower to meet their needs

Diverter Handle
Controls water flow to shower outlets

Pressure Balance Valve
Controls temperature and turns the water on and off

(Sold separately)

A diverter shower system allows the user to select the shower outlet they want to use. All temperature mixing and on/off functionality are operated through a separate valve in the wall.
THERMOSTATIC SHOWER SYSTEMS

Precision control for a relaxed showering experience.
We’ve all been there before. You’ve just stepped into the shower when someone else in the house either turns on a faucet or flushes the toilet. Suddenly the temperature of your shower plummets or becomes scalding hot – leaving you with soap in your eyes as you try to manually adjust the temperature back to a comfortable level.

The SafeStop is a small manual override button that keeps in particular children safe from going above 100°F (38°C). However, if required, you can go above 100°F by simply pressing the button and unlocking the temperature cartridge.

Installing a GROHE thermostatic shower system means you can have a safe and enjoyable showering experience every time.

Always the right temperature, for ultimate convenience and safety.
GROHE TurboStat technology lies at the heart of our thermostatic shower systems. The thermoelement’s unrivaled sensitivity means it delivers water at the desired temperature within a fraction of a second – and keeps it constant for the duration of your shower. Time and water will no longer be wasted getting the temperature right with GROHE thermostatic shower systems. And if the cold water supply fails, it reacts instantly: hot water will shut off automatically to avoid the risk of scalding.
GROHE RAINSHOWER SMARTCONTROL

Choose the spray, control the volume, save the settings. GROHE’s unique SmartControl push-and-turn button technology takes the idea of comfortable showering to a new level. The innovative GROHE SmartControl technology offers spray selection and volume adjustment in one. Turn the GROHE ProGrip handle and alter the volume as you like. Your preferred volume setting is stored - perfect for a short shower pause or for your next shower. Smooth and intuitive controls, operated directly from the main shower unit, means operation is simple and easy for the entire family - including children. That’s Smart.

• Key Features:
  • PUSH for ON-OFF, TURN for volume adjustment. Easy and direct selection of spray, outlet & flow on the body
  • GROHE StarLight chrome finish
  • GROHE CoolTouch – cooling channels create a barrier and eliminate risk of scalding
  • GROHE TurboStat – Always the right temperature, for utmost convenience and safety
  • XL EasyReach tray to store shampoo and soap
  • 19 ⅝” Shower arm
  • Includes 69” metal, twist-free RotaFlex shower hose (28 025)
  • Hand shower holder included
  • Shower head and hand shower sold separately
Temperature

GROHE TurboStat technology lies at the heart of this shower system. The thermoelement's unrivaled sensitivity means it delivers water at the desired temperature within a fraction of a second – and keeps it constant for the duration of your shower.

Start/Stop & Volume

The innovative GROHE SmartControl technology lets you choose your preferred shower outlet and adjust the water flow as desired. Operation is simple and easy for all the family – including children. That’s Smart.

GROHE RAINSHOWER SMARTCONTROL

Just push the button to choose your preferred shower outlet and enjoy. Switch whenever you like between a refreshing GROHE Rain/Rain O² spray, the new TrioMassage spray to massage your head and shoulders, or simply have the Power&Soul hand shower. Prefer two sprays at the same time? No problem, just activate both buttons.
Push the button to start the shower.

Turn to adjust the water volume gradually from Eco to Full Flow.

Push again to stop or pause the shower. The volume is now preset when you restart.

GROHE RETRO-FIT
SHOWER SYSTEM

Ideal for retrofit or renovation, the GROHE Retro-Fit Shower System installs easily and quickly. Simply replace the existing shower arm and add the system components without altering any in-wall plumbing. Once installed, it’s easy to use; a quarter turn of the diverter lever (located at the bottom of the shower bar) switches water flow from showerhead to hand shower or you can have both outlets on simultaneously.

Key Features:
• Easy upgrade for the shower
  - No need to break tile
  - Works with existing plumbing behind the wall
  - Allows for up to 2 shower outlets
• Six-position diverter
  - Select normal or Eco water flow through the showerhead, hand shower or both
• Optional 1.8gpm flow restrictor for California and other “Green” states
• Built-in diverter allows change between showerhead and hand shower
• Supply elbow connection – Angles the hose around existing valve for ease of use
• GROHE StarLight chrome & Brushed Nickel InfinityFinish
• Wall mounted – replaces existing showerhead/arm
• Standard 12 3/4” and 17 11/16” Rainshower shower arms
• Optional ComfortZone: 180° swivel shower arm
• Adjustable hand shower glider
• Metal shower hose 59” (28 417)
• Optional 6” height extension (26 464) sold separately
• Shower head and hand shower sold separately
Six Position Diverter
Select Normal or Eco water flow through the showerhead, hand shower or both.
1. Showerhead
2. Hand shower
3. Showerhead & hand shower
4. Showerhead Eco flow
5. Hand shower Eco flow
6. Showerhead & hand shower Eco flow
