

FOR IMMEDIATE RELEASE

Indulge in the Ultimate Shower Experience with the GROHE Rainshower 310 SmartActive Shower Head

Stylish, Oversized Shower Head Combines Rain and Jet Sprays, Bringing Versatile Performance and Minimalist, Contemporary Design to Luxury Shower Environments

LOS ANGELES, DWELL ON DESIGN (April 5, 2018) — While some types of showers gently caress the skin like a summer rain, others give an invigorating massage. The new Rainshower 310 SmartActive shower head from GROHE, part of the LIXIL Corporation, offers the best of both worlds for a thoroughly satisfying shower every time. Moreover, the juxtaposition of an extra-large shower head with a slender shower arm introduces an exciting design dimension into the bathroom. Available in round or square options, and sporting a minimalist design that promises an exceptional water experience, these shower heads will harmonize perfectly with any modern bathroom design.

Double the Pleasure

The [Rainshower 310 SmartActive](#) shower head uses a special spray face to double the pleasure of showering. Oval water outlets arranged in a star-shaped pattern at the center of the spray face generate a vigorous massage jet. They are surrounded by an arrangement of nozzles producing a much more gentle PureRain spray. This means users can choose between a concentrated jet to loosen up tense muscles and a rain shower completely enveloping their body.

Easily customize the luxury shower experience with GROHE Rainshower 310 SmartActive shower head, which offers both gentle rain and powerful jet sprays in a single stylish model.

The luxurious new showers are manufactured to the highest standards of German workmanship at the brand's newly expanded production facility in Lahr, Germany, a recent LIXIL Corporation investment aimed at further enhancing the excellent experience that GROHE delivers for its customers.

The shower can be energizing and invigorating, or soothing and relaxing, to provide a deeply satisfying shower session. To simplify switching between the different shower functions, GROHE offers the [new GrohTherm SmartControl trims](#) that feature an intuitive push-and-turn button technology. With a depth of only 1 ¾-inches (43mm), these sleek styles of thermostatic trim ensure minimum intrusion into the shower, leaving maximum room to move around.

The SmartControl concept allows operation of the Rainshower 310 SmartActive shower head and a hand shower, from a single trim. Cleaning the shower face is just as easy; the SpeedClean design of the silicone nozzles means that limescale can simply be wiped off.

An Eye-Catcher in the Bathroom

Their size alone gives the round and square-shaped GROHE Rainshower 310 SmartActive shower heads a commanding presence in the bathroom. Yet despite their 12-inch diameter, or edge length in the square option, the showers never feel obtrusive. This is thanks to their low-profile body and uniquely streamlined silhouette. The beautifully slim shower arm comes with a matching round or square wall rosette.

The shower faces and the SmartControl units are available in GROHE StarLight chrome finish, allowing for perfect harmony with the rest of the bathroom décor. Design-coordinated hand showers and other water fittings are available in the extensive range of bathroom products from GROHE, the brand that is synonymous with flexibility in bathroom design and fully personalized shower experiences.

The GROHE Rainshower 310 SmartActive shower heads have list prices ranging from \$795 to \$995. To learn more, visit GROHE.US.
