# THE GROHE STORY

GROHE is the world’s leading provider of sanitary fittings and a global brand, dedicated to providing innovative water products.

For many decades, GROHE has been committed to the brand values of technology, quality, design and sustainability that all illustrate GROHE’s commitment to creating exceptional experiences and to delivering “Pure Freude an Wasser”.

All plants of the GROHE manufacturing network make use of high-precision production engineering to ensure compliance with consistently high GROHE standards. This way GROHE ensures that its products live up to the most uncompromising demands in terms of workmanship and functionality.

## QUALITY

From the first design sketch to the final product to after-sales services: Our customers can rely on our Made in Germany sense of perfectionism.

*“No. 1 most trusted brand in the sanitary industry” – Wirtschaftswoche, 2017*

## TECHNOLOGY

We constantly drive innovation to enrich your everyday water experience, delivering smart solutions on the path of the digitization of water.

*“Red Dot Winner Digital Solutions” – Red Dot 2021*

## DESIGN

Our highly awarded design DNA's recipe for success is simple: Merging the contemporary and the timeless into products that feel like they were designed just for you.

*Over 465 design awards won since 2003*

## SUSTAINABILITY

Water is our passion. We care about every drop and our CSR commitment goes even beyond one element alone: We strive to protect all of our planet’s resources for future generations.

*Double winner of the German Sustainability Award 2021*

# GROHE ADVANTAGES

## 2 YEARS WARRANTY

GROHE 2 years + 1 year extended warranty on GROHE Red, GROHE Blue and GROHE Sensia Arena.

## 5 YEARS WARRANTY

GROHE offers at least 5 years warranty on most products.

## 10 YEARS WARRANTY

GROHE offers 10 years warranty on all concealed products including e.g. GROHE Rapid SLX and GROHE Rapido SmartBox.

## MADE IN GERMANY

GROHE has delivered German quality since 1936. Roughly 80 % of GROHE's assortment is currently produced in Germany. All products are being held to strict German quality requirements and standards.

## SUSTAINABILITY AWARD

**2018:** Top 3: Germany's most sustainable large companies  
**2019:** Top 3: Germany's most sustainable large companies  
**2021:** Winner: "Design"

## CSR-PREIS

Winner of the German Government CSR award 2017.

## TYPE APPROVED IN FINLAND

According to the Water Fittings Regulation, faucets and showers that has type approval in Finland are identified by this mark. Please note that not all bathroom products require type approval. Such as e.g. bathroom accessories, towel hooks, hoses, shower handles and ceramics. More information from the GROHE customer service: [grohe@grohe.fi](mailto:grohe@grohe.fi)

## RED DOT

GROHE has won a multitude of design awards including "Red Dot: Brand of the Year" in 2019 in competition with 8,697 other brands. It is awarded to the best brand in the industry.

# GROHE TECHNOLOGIES

## GROHE WATER SAVING

All our products with GROHE Water Saving are designed to save water and energy – without compromising comfort. Thanks to the built-in flow restrictor, water consumption is significantly reduced without affecting the user experience.

You'll find water-saving technology in many of our products - from basin taps to shower systems and thermostats.

## GROHE TURBOSTAT

Our innovative GROHE TurboStat technology ensures that the desired water temperature is set in a fraction of a second and maintained throughout the shower.

Thanks to TurboStat technology, the water pressure is adjusted twice as efficiently as with a standard thermostat, so you reach the right temperature instantly. This also avoids sudden and uncomfortable water temperature fluctuations during the shower.

## GROHE COOLTOUCH

GROHE CoolTouch technology ensures that the thermostat never gets too hot to touch. This way, you and the rest of the family can avoid overheating and unpleasant surprises in the bath.

A cooling channel built into the thermostat ensures that there is always a protective layer between the hot water and the surface of the thermostat.

## GROHE SILKMOVE

GROHE SilkMove technology ensures easy and precise use of the tap handle. This means you always have 100% control over both water intensity and temperature.

The unique ceramic plate and Teflon® technology contribute to a simple and comfortable user experience every time and for many years to come.

## GROHE SILKMOVE ES

GROHE SilkMove® ES technology not only offers a unique smoothness of operation, but also encourages responsible management of energy and water. In cold-water mode and positioned mid-lever, the ES technology springs into life. This eliminates opening the faucet in the mixed hot-and-cold water mode, saving energy by avoiding the unnecessary heating of water for daily rituals like cleaning your teeth or washing your hands.

## GROHE LONG-LIFE SHINE

GROHE Long-Life Shine technology helps ensure a durable finish. The surface is designed to resist dirt and scratches, making maintenance and cleaning easy.

PVD coating ensures that the surface composition is three times harder and ten times more scratch resistant.

## GROHE DREAMSPRAY

This technology ensures an even spray from all nozzles at every spray setting. All GROHE -showers feature DreamSpray technology, which combines quality with advanced features. This technology saves water and the environment.

## LEAD AND NICKEL FREE

GROHE's lead-free and nickel-free internal water technology ensures that you get clean, lead-free and nickel-free drinking water.

This technology ensures that the internal water pathways of the tap prevent lead from entering the drinking water.

## GROHE FASTFIXATION

Makes installation easier and faster.

## GROHE WHISPER

GROHE Whisper technology in our concealed tanks brings peace of mind, convenience and freedom. Thanks to separate pipe supports, no sound is transmitted to the structure when water is released from the tank into the toilet seat. This allows the toilet to be positioned where it is most convenient.

## SKIN CLEAN

Choose your preferred spray option for great cleaning.

## GROHE POWER FLUSH

Innovative flush design for unbeatable cleaning power.

## REGULATIONS

According to local laws and norms in over 130 countries

The GROHE Corporate Center and the GROHE Design Studio are situated in the heart of Düsseldorf, the state capital of North Rhine-Westphalia and one of Germany’s centres of the fashion and design sectors. Being active in over 130 countries, the company benefits from good access to an international infrastructure at its new location. GROHE believes in the principle of short lines of

communication externally as well as internally. The transparency and openness of the new Corporate Center, which was designed by Richard Meier, encourages interaction between employees and communication with market partners. This is also reflected in the new GROHE Store, a cutting-edge showroom and dedicated communication centre.

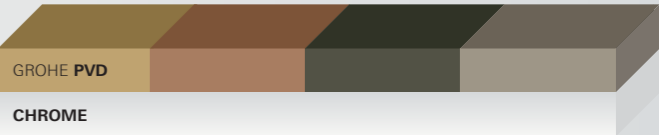

# GROHE PVD COLORS

**Made-to-last surfaces ranging from precious matt to shiny like a diamond.** GROHE taps are made to look as beautiful decades on as they did on the day you first fell in love with them.

Our special recipe for success lies in our long-lasting surface quality. GROHE uses state-of-the-art technology to deliver exceptional quality finishes. The physical vapour deposition (PVD) process ensures that the surface composition is three times harder, delivering a glistening gold or sophisticated stainless steel finish. As well as being harder, the surface is also ten times more scratch resistant, so it can be cherished for a lifetime.

GROHE PVD  
**10 x more scratch resistant**  
**3 x more surface hardness**

**Keep an eye out for the round symbols indicating what colors each product is available in.**

The second and third to last digit of the product number (e.g. 23 589 **00**1) is replaced with the color code, as seen below (e.g. 23 589 **AL**1).

PVD colors and Phantom Black are **not** the same type of surface.

GROHE no.: 31 654 AP0

610 x 460 mm, 1 bowl.  
GROHE no.: 31 655 AP0

GROHE composite sinks offer superlative durability and function. Our composite uses 80% quartz mixed with acrylic resin for a super hardwearing material. Molded using a special computer-controlled casting process, it creates sinks that are extremely resistant to heat, dents, scratches and stains. It also doesn't fade under UV light, meaning it will retain its good looks as well as its premium performance.

We're sure you'll love the velvety smooth pore-free surface that is hygienic and easy to clean.

# GROHE SENSIA ARENA SHOWERTOILET

## WELCOME TO A NEW DIMENSION OF **PERSONAL CARE**

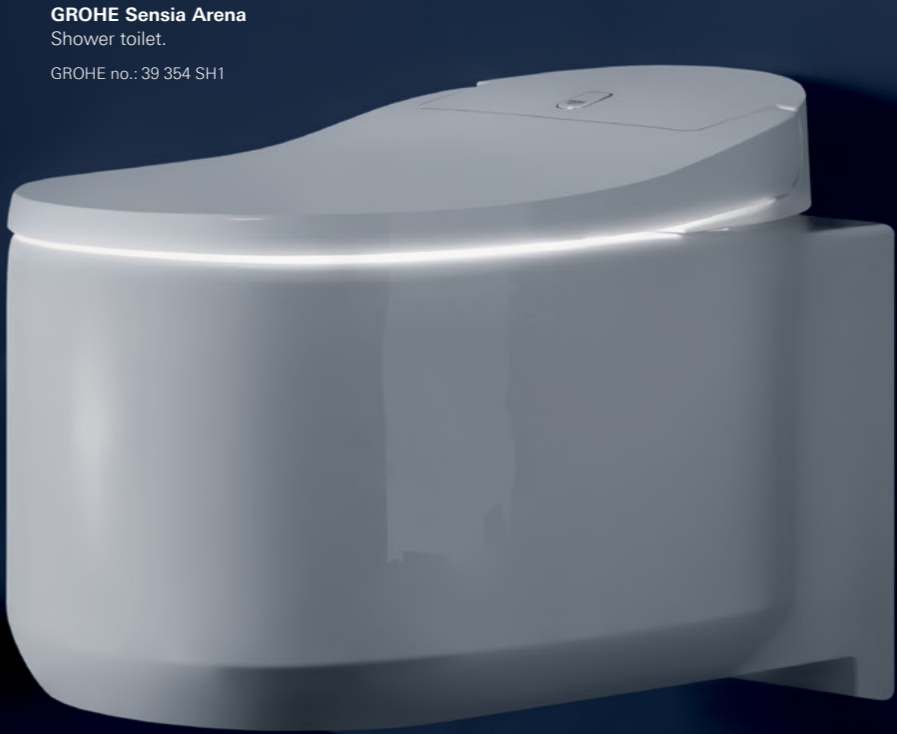

Experience a new standard of ultimate personal hygiene, more comfortable, hygienic and soothing than using paper. What do we mean by ultimate hygiene? That's the clean that comes from advanced AquaCeramic technology, germ-resistant HyperClean coating and self-cleaning spray arms. So that your GROHE Sensia Arena is always bright and clean.

A gentle and kind way to cleanse and care for your skin: that's the promise of the GROHE Sensia Arena. Unlimited warm water and adjustable sprays leave you with a special feeling of comfort and wellbeing.

It's all at your fingertips: three ways to conduct your cleansing routine. Choose the personalised smartphone app, the intuitive remote or the simple control panel. And enjoy the special features like automatic seat open and close, the night light or the air dryer to leave you feeling dry and comfortable. All for your comfort.

Remote control.
