

# CIRCULAR ECONOMY AT GROHE

**SUSTAINABILITY IS THE FUTURE –  
REDUCING RESOURCE CONSUMPTION AND  
POLLUTION FOR A HEALTHY PLANET AND SOCIETY**

**AIMING FOR A WORLD WITHOUT WASTE –  
CIRCULAR ECONOMY AT GROHE**

## ULTIMATE SUSTAINABILITY WITH GROHE'S FIRST CRADLE TO CRADLE CERTIFIED® PRODUCTS

This circular model is the basis for the Cradle to Cradle® design concept. Here products are designed and manufactured with the intent of using its components in its end-of-life-phase for the creation of new products.

GROHE launched four best-selling products as *Cradle to Cradle Certified®* variants, which achieved the Gold Product Standard.

GROHE Tempesta 100 shower rail set

GROHE Eurosmart Kitchen

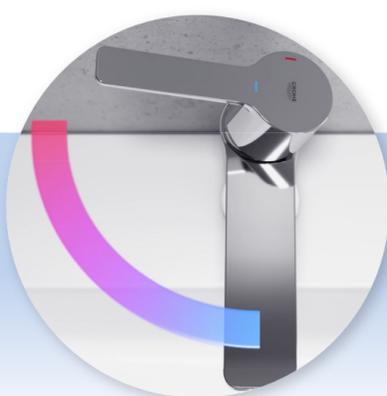

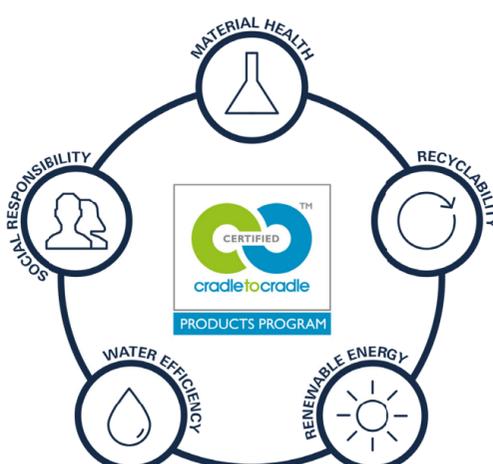

GROHE Eurosmart S-Size

GROHE BauEdge S-Size

The *Cradle to Cradle Certified®* Product Standard is the world's leading science-based and rigorous norm for designing and manufacturing safe, circular and responsible materials and products. Find more information [here](#).

**To achieve a certification, a product is evaluated in terms of the following five categories:** material health, material reutilization, renewable energy, water stewardship, and social fairness.

**Each product is then designated a level of achievement:** basic, bronze, silver, gold, or platinum.

**Further reduction of a buildings' carbon footprint:** The sustainability benefit of the two faucets, GROHE Eurosmart and GROHE BauEdge, is enhanced with the SilkMove ES technology, where ES stands for energy-saving. The technology prevents the unnecessary use of hot water by supplying only cold water with the faucet lever in the middle position.

**Emissions from buildings and construction constitute almost 40% of global carbon emissions\*.**

\*European Commission, 2020
