

Green Electricity Certificate

This document certifies that

Grohe AG
Feldmühlenplatz 15
40545 Düsseldorf
Deutschland

is using 100% climate neutral produced renewable electricity according to the quality criteria of First Climate Markets AG

to cover the equivalent electricity consumption for the period of 01.04.2020 – 31.03.2021 of **55.000 MWh**

The use of this amount of renewable energy results in emission reductions of **26.180 t CO₂**

and is based on Guarantees of Origin from selected Scandinavian hydropower plants.

Upstream emissions are being redeemed when becoming climate neutral.
