In case of inhalation:

Move victim to fresh air wearing a self contained breathing apparatus. Make sure he/she is warm and comfortable. Seek medical attention.

If breathing has stopped, give artificial respiration immediately.

Following skin contact:

In the event of cold burns, wash with water for at least 15 minutes. Cover frostbitten skin with sterile tissue. Seek medical attention.

After eye contact:

Immediately flush eyes with plenty of flowing water for 10 to 15 minutes holding eyelids apart. In case of troubles or persistent symptoms, consult an ophthalmologist.

After swallowing:

Swallowing is not regarded as a possible way of exposition.
