

# Green Electricity Certificate

This document certifies that

Grohe AG  
Feldmühlenplatz 15  
40545 Düsseldorf  
Deutschland

is using 100% climate neutral produced renewable electricity according to the  
quality criteria of First Climate Markets AG

to cover the equivalent electricity consumption for the period of 01.04.2020 – 31.03.2021 of  
**55.000 MWh**

The use of this amount of renewable energy results in emission reductions of  
**17.726 t CO<sub>2</sub>**

and is based on Guarantees of Origin from selected Scandinavian hydropower plants.

Upstream emissions are being redeemed when becoming climate neutral.

Bad Vilbel, September 2020
