

Green Electricity Certificate

This document certifies that

Grohe AG
Feldmühlenplatz 15
40545 Düsseldorf
Deutschland

is using 100% climate neutral produced renewable electricity according to the
quality criteria of First Climate Markets AG

to cover the equivalent electricity consumption for the period of 01.04.2021 – 31.03.2022 of
55.000 MWh

The use of this amount of renewable energy results in emission reductions of
19.586 t CO₂

and is based on Guarantees of Origin from selected Scandinavian hydropower plants.

Upstream emissions are being redeemed when becoming climate neutral.
